DARLEY GROVE
TREE WORK SCEDUAL SEPTEMBER 2008

Tree ref D1 Prune side growth from main trunk and remove dead ivy. Inspect major branches that were cut back in 1998 and check the new vertical growth that has resulted. Remove any unsafe growth and rationalise any multiple growths.

Tree ref F4 Prune dead wood growing into neighbours trees.

Tree ref B4 Fell split ash. Replace with a light standard sweet chestnut adjacent to the edge of the formal lawn area.

Tree ref E6 Fell over mature ash. Replace with a light standard sweet chestnut midway between the current positions of trees E6 and E7.

Tree ref E7 Fell over mature ash. Replace with a light standard oak on the boundary approximately 5m South of tree E2
