### 3 D Image of Proposal Sculpture and Landscaping to the Roundabout

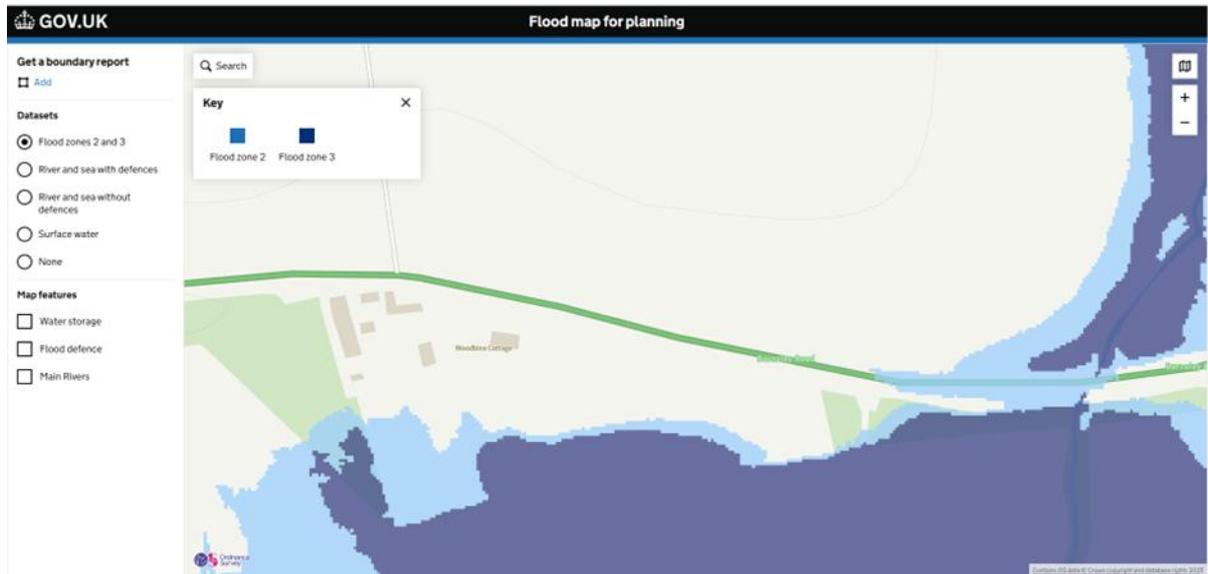

The artwork sculpture will be 5m in height onto a precast concrete foundation. The diameter of the sculpture is 3000 mm.

Each panel will be made up of 2 layers of mild steel separated with a 8mm mild steel washer with tinted resin coating to provide texture and colour.

## Extract from government web site for Flood Risk Maps – Location S639FA

### Conclusion

The nearest residential property lies approximately 250m from the proposed site and is currently outside any flood zones 2 or 3

Due to nature of the works, that are being proposed a sculpture and landscaping works, it is considered that the proposals will have no negative impact on flooding in the area.
