

Biodiversity gain plan

Submit a biodiversity gain plan to show how your development will achieve biodiversity net gain.

When to use this form

A biodiversity gain plan shows how a development will achieve 10% biodiversity net gain (BNG). Submit this form to your local planning authority after they approve your planning application.

Unless your development is exempt, you cannot start the development until the LPA approves your biodiversity gain plan and biodiversity metric calculation tool.

3.6 Declaration

4.8 If yes, tell us about the significant on-site enhancements

Include the appropriate planning condition or how you've secured the habitat.

To achieve a sufficient net gain on-site and satisfy the trading rules, an area of other neutral grassland will be created to the north of the site outside of private ownership, with the aim to reach moderate condition. The remainder of the development has been split 70:30 developed land to vegetated garden.

4.9 How many off-site biodiversity units do you need to meet 10% net gain?
None.
