- Drainage
- Impacts on the road or public transport networks
- Impact on local amenity
- Loss of views or value to existing properties

Other (please specify)

Question 6

Do you have any other comments on our proposals?

I am a resident of Claret Street and have lived here for 16 years - in that time there have been numerous estates being built in the local area which have already had a huge impact on the Penistone area. This development is far too big for the access routes - Hatcliffe Hill Road is a small lane - not meant for heavy traffic. It joins onto Mortimer Road which is already extremely busy at all times of the day. The sightline from Chapel Lane onto Mortimer Road is already restricted. I think using this as an access point is an accident waiting to happen on an already busy road. I completely object to this site having access onto Claret Street as this road is now extremely busy with the ~~are~~ bus route, on street parking and the potential of another estate eventually being built on the infants site. This area is already congested with traffic, very busy and full of speeding cars. I think the access points are a danger. I'm sure there are other sites in the Penistone area which make much more sense.

Question 3

Do you think your local area will benefit from a new housing development?

- Yes
- No

Comments

I feel it will totally devastate what is a beautiful unspoiled country landscape that is all too quickly disappearing and once it is gone and ruined it is lost for ever. We should be protecting such areas for the benefit of everyone in Penistone - not destroying it for short term financial gain. I feel that it would be detrimental to the whole feel of Penistone and its country heritage.
