Details of the pre-application advice received

Email dated 11/11/20 to the applicant:
I have attached the application for you need to complete. You need to apply for a change of use from factory to warehouse. The form is generic so a number of the questions wont apply to you or what you want to do. Just leave these blank or put n/a. The fee for this application is £462

In terms of plans, as you are not making any physical alterations to the building or site you will just need to submit a redline plan, this is an OS plan with the site and access outlined in red but its location clearly identifiable by surrounding streets / buildings etc.

I think it would be helpful to provide a site layout if you have one, but if no changes are proposed this isn't strictly necessary.

23. Pre-application Advice

As discussed the main issue or concern will be around traffic so it would be helpful to provide some form of transport statement, albeit I am not sure of the size of the sash unit so cant advise what type of transport statement / assessment is required. We will need to understand vehicle movements to and from the site, types of vehicles used and the route into and around the site. I think it would also be helpful to set out the current movements associated with your building nearby and, if it is possible, to make some comparison with the traffic associated with Sash, albeit this may be harder to secure. This is likely to require support from a transport consultant who would also be able to advise on the appropriate scope of the assessment.

I haven't identified any other documents or plans that you would need at this stage but sometimes things do come up in the consultation process once the application is submitted.

24. Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

☐ Yes ☒ No

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

25. Ownership Certificates and Agricultural Land Declaration
