

KEY

- Existing trees, hedges and vegetation to be retained.
- Existing trees, hedges and vegetation to be removed.
- Proposed Extra heavy standard (14-16cm girth) tree
- Proposed heavy standard (12-14cm girth) tree
- Proposed selected standard (10-12cm girth) tree
- Proposed light standard (8-8cm girth) tree
- Proposed 'Instant' native species hedge
- Proposed native species hedge
- Proposed Beech hedging
- Proposed evergreen flowering hedge (Escallonia)
- Proposed evergreen hedging (Photinia)
- Proposed ornamental shrub planting
- Proposed turf
- Proposed amenity grass seed
- Decorative gravel
- Proposed 1800mm high close boarded timber fencing (detailed by others)
- Proposed 1200mm high post and rail fence (detailed by others)
- Proposed plot division fence (detailed by others)
- Proposed wildlife habitat boxes (from left to right) - Bat boxes and bird boxes suitable for different species

NOTES

PROTECTION OF EXISTING VEGETATION
 Existing vegetation to be retained on site shall be protected where necessary during works by a tree protective barrier, secured to a scaffold tubing framework with fluorescent tape to the top rail. Protective fencing shall be erected on the canopy drip line wherever possible. Laminated, waterproof A4 signs shall be fixed to the fence posts at 10m intervals bearing the words 'PROTECTED TREE ZONE - NO STORAGE OR OPERATIONS WITHIN FENCED AREA'.

Tracking of machinery, storage of chemicals and building materials shall not be permitted within the protected area. Leaks or spills should be removed immediately and the contaminated soil replaced. No bonfires shall be lit within 5m of the canopy spread. Any excavation work beneath the canopy spread shall be carried out by hand.
 All works affecting trees within the development shall be subject to BS 5837:2012.

TREE PLANTING
 A hierarchy of tree planted sizes will be used on site. With extra heavy standards planted along the main access roads and at key focal points, down to light standards planted within rear gardens. A range of ornamental tree species will be planted which will have a final size that will be suitable for the location. Native tree species will be planted within the open space. Foundation design of new buildings shall accommodate proposed tree planting in accordance with NHC guidelines.

Suggested species:

| | |
|--------------------------------------|--|
| Acer campestre (Ac) | Prunus subhirtella 'Autumnalis Rosea' (PSAR) |
| Acer campestre 'Elaeagn' (AcE) | Prunus coccinea 'Chanticleer' (PC-C) |
| Betula pendula (Bp) | Betula utilis var. jacquemetii (BuJ) |
| Betula utilis var. jacquemetii (BuJ) | Sorbus aria 'Lutescens' (Sa) |
| Carpinus betulus 'Fastigiata' (CBF) | Sorbus aucuparia (Sa) |
| Malus sylvestris (Ms) | Sorbus Embley (SE) |
| Prunus padus (Pp) | Sorbus Joseph Rock' (SJR) |
| Prunus padus 'Albertii' (PpA) | |

SHRUB PLANTING
 A mix of evergreen and deciduous shrubs will be planted in selected front gardens to soften the development and to provide a valuable food source for birds and invertebrates. A mix of medium/low shrubs will be planted to shrub beds with medium/large varieties used against walls and hedges.
Suggested species: () density/m²

Berberis candidula 'Amstelveen' (5), Berberis thunbergii 'Atropurpurea Nana' (6), Ceanothus thyrsiflorus repens (5), Choisya ternata 'Sundance' (4), Cotoneaster conspicuus 'Dorcas' (4), Cytisus prostratus 'Blue' (4), Eucymia fortunei 'Emerald n' Gold' (6), Fuchsia 'Mrs Popple' (4), Hebe 'Red Edge' (5), Hebe 'Autumn Glory' (4), Hebe 'Mrs Winder' (4), Hypericum mossanicum (5), Lavandula angustifolia 'Hidcot' (6), Lavandula angustifolia 'Munstead' (6), Lonicera pileata (5), Philadelphus 'Mantou d'hermine' (3), Prunus laurocerasus 'Low n' Green' (4), Rosa 'Swany' (4), Sarcoacocca confusa (5), Spiraea japonica 'Goldflame' (4), Viburnum davidii (5).

HEDGE PLANTING
 Hedges will be planted in selected plots to strengthen boundaries and improve screening. Ornamental hedge planting will consist of Beech, Escallonia and Photinia, which will contribute to all year round colour and texture. Hedges are to be planted as 40-60cm high hedging plants.

PUBLIC OPEN SPACE
 A central public open space will be provided containing a play area to LEAP standards, beech hedge planting and tree planting. The open space will provide an informal recreation area for the future residents.

- ECOLOGICAL RECOMMENDATIONS**
- Trees will be planted within the rear gardens along the northern boundary. The trees will provide a buffer between the houses and the existing vegetation whilst creating a linear wildlife feature along the boundary of the site.
 - 150mm holes are to be left in the bottom of all rear garden fences (furthest point away from the house) to allow for hedging access.
 - 7ur Instock bat brick C are to be installed high on the gable end or under eaves of buildings. They should be positioned away from direct illumination.
 - 20hr open fronted and hole fronted nesting boxes should be provided, attached beneath the eaves of new homes.
