Dear Sir,

Re: App. No. 2020/1424

In respect of your E-mail 16/12/2020 about the above application, I now enclose, herewith, the following documents in support of this, addressing the points outlined in your E-mail:-

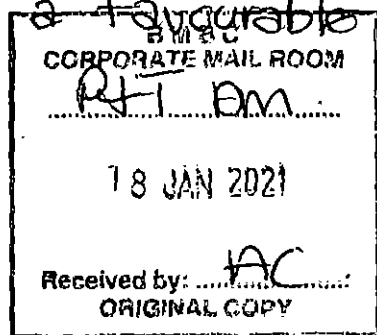

- a) Tree Report & Recommendations prepared by Owen Holmes,
- b) Summary of the Report.
- c) Original photos of the trees referred to, which may be useful for you when considering the application.

I trust this will enable you to progress with your consideration of this application, & I hope, a favourable outcome,

Yours faithfully,

J.M. Ingamells

MR. J.M. INGAMELLS

Dear Sir

RE: TREE REPORT AND RECOMMENDATIONS AT ABOVE

Further to your request and recent site visit 11/01/21 I forward my report.

Tree A) Sycamore mature tree close to boundary wall overhanging Hall Balk Lane. Showing some storm damage, three broken branches evident, there are also several dead branches in the upper crown.

I recommend crown cleaning i.e. remove deadwood and broken branches. I also suggest that the large elongated lower limb be reduced by half its length to a suitable side branch, thus preventing similar branch end loss.

Tree B) Sycamore semi-mature slender upright growth, small crown.
Crown clean i.e. remove a few dead branches.

Tree C) Lime very drawn tree with clear stem, high crown. No works required.

Tree D) Beech a mature and the largest tree within this group, in good health. There is however another long lower limb growing toward Hall Balk Lane that needs reducing in length and drawing back by 6 metres to a suitable side branch, together with longer trailing branch ends on the opposite side of the crown which could be drawn back by 2 metres to clear three conifers.

Tree E) Sycamore a mature tree on the outer edge of this group and has developed well. However a long lower limb growing towards Hall Balk Lane is dense and end heavy and requires 20% thinning to lighten this branch end. The rest of the crown would benefit from a crown clean.

All works should be carried out to B.S. 3998 codes of practice.

Yours faithfully J Owen Holmes.
