Design and Access Statement for the proposed Change of use for Building 3 Unit 10.

There is to be no change of access, rights of way or easements for this as it is an office building that is already in existence we just need a change of use to sui generis for the Taxi operation, we currently already have this for our current office in the same building, we are just wanting to move to a bigger office in the same building.

Regards

Alex Elbourne

Director
