Dear Joe,

Planning Application for Barnsley College Construction Centre, Honeywell Lane Campus

On behalf of our client Barnsley College, we enclose a signage application for the proposed Construction Centre.

Please note that our input into the signage package was for design intent only, all detail design information taken forward to installation was by Ascot Sign Systems.

As per our discussions please find enclosed 3 no. hard copies of the following documentation at A3 to support the application:

- Planning Application Forms
- Ascot Sign Systems External Signage document

We trust that all the requisite information has been provided for you to immediately validate this application and approve it within the recommended timescale. If you wish to discuss this application in detail prior to determination, we would be pleased to meet with you.

Yours faithfully,

[redacted]
