

GRANT OF PLANNING PERMISSION

TOWN AND COUNTRY PLANNING ACT 1990

APPLICATION NO. 2023/0158

To Tatlow Stancer Architects
Sheffield Design Studios
Lion Works
40 Ball Street
Sheffield
S3 8DB

DESCRIPTION Residential development of 13no dwellings and associated works (Amended Plans)

LOCATION Land lying to the North West of Cobcar Lane, Elsecar, Barnsley

Permission is **granted** for the proposals which were the subject of the Application and Plans registered by the Council on 28/02/2023 and described above.

THIS DECISION IS SUBJECT TO THE TERMS OF THE AGREEMENT MADE UNDER SECTION 106 OF THE TOWN AND COUNTRY PLANNING ACT 1990 (AS AMENDED).

The approval is subject on compliance with the following conditions:

- 1 The development hereby permitted shall be begun before the expiration of 3 years from the date of this permission.
Reason: In order to comply with the provision of Section 91 of the Town and Country Planning Act 1990.
- 2 The development hereby approved shall be carried out in accordance with the plans and specifications as approved unless required by any other conditions in this permission. The approved plans are;

22077-010-A1-Rev P15 'Proposed Site Plan'
22077-065-A1-Rev P03 'Street Elevation'
22077-075-A3-Rev P03 'Proposed View 01'
22077-076-A3-Rev P03 'Proposed View 02'

The approved Specifications/Documents/reports are;

Arboricultural Impact Assessment and Method Statement - Ref: MG/7107/AIA&AMS/FEB23

Reason: In the interests of the visual amenities of the locality and in accordance with Local Plan Policy D1 High Quality Design and Place Making.

- 3 Upon commencement of development details of the proposed external materials shall be submitted to and approved in writing by the Local Planning Authority. The development shall be carried out in accordance with the approved details.

Reason: In the interests of the visual amenities of the locality and in accordance with Local Plan Policy D1 High Quality Design and Place Making.

- 4 Upon commencement of development a plan indicating the position of boundary treatment(s) to be erected shall be submitted to and approved in writing by the Local Planning Authority. The boundary treatment shall be completed before the dwelling is occupied. Development shall be carried out in accordance with the approved details and shall thereafter be retained.

Reason: In the interests of the visual amenities of the locality and the amenities of occupiers of adjoining property in accordance with Local Plan Policies GD1 General Development Policy and D1 High Quality Design and Place Making.

- 5 Upon commencement of development details of measures to facilitate the provision of high speed full fibre broadband for the dwellings/development hereby permitted, including a timescale for implementation, shall be submitted to and approved in writing by the Local Planning Authority. The development shall be carried out in accordance with the approved details.

Reason: In order to ensure compliance with Local Plan Policy I1.

- 6 Construction or remediation work comprising the use of plant, machinery or equipment, or deliveries of materials shall only take place between the hours of 0800 to 1800 Monday to Friday and 0900 to 1400 on Saturdays and at no time on Sundays or Bank Holidays.

Reason: In the interests of the amenities of local residents and in accordance with Local Plan Policies GD1 General Development Policy and POLL1 Pollution Control and Protection.

- 7 Upon commencement of development, full details of both hard and soft landscaping works, including details of the species, positions and planted heights of proposed trees and shrubs; together with details of the position and condition of any existing trees and hedgerows to be retained shall be submitted to and approved in writing by the Local Planning Authority. The approved hard landscaping details shall be implemented prior to the occupation of the building(s).

Reason: In the interests of the visual amenities of the locality and in accordance with Local Plan Policy BIO1 Biodiversity.

- 8 All in curtilage planting, seeding or turfing comprised in the approved details of landscaping shall be carried out on each plot no later than the first planting and seeding season following the occupation of the individual dwellinghouse/s; and any trees or plants which die within a period of 5 years from first being planted, are removed, or become seriously damaged or diseased shall be replaced in the next planting season with others of similar size and species.

Reason: In the interests of the visual amenities of the locality, in accordance with Local Plan policies GD1 'General Development' and D1 'High Quality Design and Place Making'.

- 9 All out of curtilage planting, seeding or turfing comprised in the approved details of landscaping shall be carried out in full in accordance with a timetable to be submitted to and approved in writing by the Local Planning Authority upon commencement of development. Thereafter the landscaping shall be carried out in accordance with the approved details and timescales.
Reason: In the interests of the visual amenities of the locality, in accordance with Local Plan policies GD1 'General Development' and D1 'High Quality Design and Place Making'
- 10 A landscape management plan, including long term design objectives, management responsibilities and maintenance schedules for all landscape areas, shall be submitted to and approved by the Local Planning Authority prior to the occupation of the development or any part thereof, whichever is the sooner, for its permitted use. The landscape management plan shall be carried out in accordance with the approved plan.
Reason: In the interests of the visual amenities of the locality and in accordance with Local Plan Policy BIO1 Biodiversity.
- 11 The parking/manoeuvring facilities, indicated on the submitted plan, shall be surfaced in a solid bound material (i.e. not loose chippings) and made available for the manoeuvring and parking of motor vehicles prior to the development being brought into use, and shall be retained for that sole purpose at all times.
Reason: To ensure that satisfactory off-street parking/manoeuvring areas are provided, in the interests of highway safety and the free flow of traffic and in accordance with Local Plan Policy T4 New Development and Transport Safety.
- 12 All surface water run off shall be collected and disposed of within the site and shall not be allowed to discharge onto the adjacent highway.
Reason: In the interests of highway safety in accordance with Local Plan Policies T4 New Development and Transport Safety and POLL1 Pollution Control and Protection.
- 13 The development shall be carried out in accordance with the details shown on the submitted, SuDS Statement 47655-ECE-XX-XX-RP-C-0001 dated 05/01/2023 prepared by Eastwood Consulting Engineers, unless otherwise agreed in writing with the Local Planning Authority.
Reason: To ensure proper drainage of the area in accordance with Local Plan Policy POLL1 Pollution Control and Protection.
- 14 Prior to the occupation of the dwellings hereby approved, the noise mitigation measures set out in report 'Noise and Vibration Report' produced by Blue Tree Acoustics dated 9th December 2022, ref: 03684-240100, shall be fully implemented.. The measures include:
- A 2m high solid timber fence along boundaries identified in the plan, Markup 1, acoustic fencing should be constructed of solid, weather-treated timber (or ply) of minimum 18mm thickness. All joints should be tight-buttet with timber cover strips or tongue and groove boards to ensure that there are no airgaps in the structure or between the base of the fence and the ground beneath, or equivalent
 - For dwellings situated along the site boundary with the railway, ceilings in bedrooms immediately below the roof space should comprise minimum 2no layers solid gypsum-based board (total minimum mass per unit area 20kg/m²), overlaid with mineral wool insulation of minimum 200mm thick
 - External walls should comprise dense masonry cavity construction (e.g. outer brickwork with inner blockwork leaf of minimum density 1000 kg/m³). The external wall cavity should be minimum 100mm and insulated with mineral wool to the same thickness as the cavity depth

- All bedrooms facing railway line provided with glazing with a noise rating of at least 38dB Rw+Ct, and ventilation with a rating of at least 55dB DN,E,W
- All other bedrooms provided with glazing with a noise rating of at least 33dB Rw+Ct, and ventilation with a rating of at least 42dB DN,E,W
- Living rooms and dining rooms shall be provided with glazing with a noise rating of at least 33dB Rw+Ct, and ventilation with a rating of at least 35dB DN,E,W

Once the acoustic product is selected, a qualified and competent acoustic consultant shall confirm the product meets the requirements specified above and confirmation shall be sent to the Local Planning Authority. The scheme shall be retained thereafter.

Reason: To reduce or remove adverse impacts on health.

- 15 No development shall commence until full construction, engineering, drainage and street lighting details of the streets proposed for highway adoption have been submitted to and approved in writing by the LPA. The development shall thereafter be constructed in accordance with the approved details.
Reason: In the interests of highway safety, in accordance with Local Plan policy T4 - New Development and Transport Safety.
- 16 Before any dwelling is first occupied, the roads and footways shall be constructed to binder course level from the dwellings to the adjoining public highway in accordance with details submitted to and subsequently approved in writing by the LPA.
Reason: To ensure satisfactory development of the site and in the interests of highway safety, in accordance with Local Plan policy T4 - New Development and Transport Safety.
- 17 The gradient of internal access roads as well as individual vehicular accesses/driveways shall not exceed 1 in 12.
Reason: In interests of the safety of persons using the access and users of the highway.
- 18 Sight lines, as dimensioned in drawing no. 22077-A1_010-P13, shall be safeguarded at the access junction with Cobcar Lane, such that there is no obstruction to visibility at a height exceeding 1m above the nearside channel level of the adjacent highway, in the interest of road safety.
Reason: In the interests of highway safety, in accordance with Local Plan policy T4 - New Development and Transport Safety.
- 19 Pedestrian visibility splays having dimensions of 2m x 2m shall be safeguarded at driveway entrances/exits. Nothing shall be erected, retained, planted and/or allowed to grow at or above a height of 0.6m to the rear of the footway/verge which would obstruct the visibility splay. The visibility splay shall be maintained free of obstruction at all times thereafter for the lifetime of the development.
Reason: In the interests of highway safety, in accordance with Local Plan policy T4 - New Development and Transport Safety.
- 20 No works shall commence on site until a scheme for the parking of bicycles has been submitted to and approved in writing by the LPA. The scheme shall be fully implemented before the development is first occupied (or brought into use) and thereafter retained for this purpose.
Reason: In interests of encouraging use of sustainable modes of transport.

- 21 No development shall take place (including demolition, ground works and vegetation clearance) until a Biodiversity Mitigation Scheme has been submitted to and approved in writing by the local planning authority. This will set out any precautionary measures to be adopted on site during construction, details of proposed landscaping and its management, incorporation of features such as integral bat and bird boxes on proposed buildings and hedgehog access points within proposed fencing and a sympathetic lighting scheme. The measure shall be completed inline with the approved details prior to the occupation of the dwellings and retained as such thereafter.
Reason: In the interest of Biodiversity and in accordance with Local Plan Policy BIO1.
- 22 The site has been identified to be at risk from potential coal mining legacy. Intrusive site investigations must therefore be undertaken to evaluate the coal mining legacy risks as advised for in the Phase 1 Geotechnical & Geo-environmental Site Investigation report by Eastwood Consulting Engineers ref 47655 dated 11th Jan 2023. The site investigations and subsequent development must be undertaken in compliance with Construction Industry Research and Information association publication C758D "Abandoned mine workings manual" where applicable. A report detailing the findings of the investigation and any recommended mitigation shall be submitted for approval in writing by the Local Planning Authority, the development thereafter shall be carried out in accordance with the approved details. In the case of further stabilisation works being required, then the condition will not be discharged until details of such works have also been submitted. Responsibility for securing a safe and sustainable development rests with the developer and/or landowner.
Reason- Land stability NPPF sections 189 a,b,c. 190 and 180 e & f.
- 23 Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 2015 (or any Order revoking or re-enacting that Order with or without modification), no enlargement, improvement or other alteration of the dwellings which would otherwise be permitted by Part 1 of Schedule 2 to that Order shall be carried out without the prior written consent of the Local Planning Authority, and no garages or other outbuildings shall be erected.
Reason: To safeguard the residential amenity of the existing and future residents, in accordance with Local Plan Policy GD1.

Informative(s)

Pursuant to article 35 (2) of the Town and Country Planning (Development Management Procedure) Order 2015 (as amended), the Local Planning Authority have, where possible, made a pre-application advice service available, and otherwise actively engaged with the applicant in dealing with the application in a positive and proactive manner.

- 1 The granting of planning permission does not in any way infer that consent of the landowner is given. Therefore, the consent of all relevant landowners is required before proceeding with any development, including that of the Council as landowner.

If it should transpire that the applicant does not own any of the land included in this consent, then it is the responsibility of the applicant to seek all necessary consents and approvals of the landowner.

- 2 The granting of planning permission does not affect the status of species such as owls and bats, which have protection under other legislation. These may be present and it is the applicant's responsibility to seek advice on how to avoid damaging operations. Further advice can be obtained from the Countryside Unit in the Planning & Transportation Services, on 01226-772576, or directly from www.naturalengland.org.uk
- 3 Planning permission does not infer any other consent is given and it is the responsibility of the applicant to ensure that all other permissions are in place before development commences. The developer must contact Highways, Engineering & Transportation on 01226 773555 prior to any work commencing on-site, to gain all necessary technical and legal approvals relating to the creation/alteration/reinstatement and removal of vehicular accesses to the highway.
- 4 Roads other than agreed shared private drives shall be constructed to an adoptable standard and offered for adoption on completion under (the provisions) Section 38 of The Highways Act (1980). Engineering and surface water drainage details shall be submitted for inspection and approval in writing by the (Local Planning Authority) Highways Authority before works commence on site. The applicant should make contact with Highways Development Control, Tel. 01226 772033/772170. Email. HighwaysDC@barnsley.gov.uk as soon as possible to arrange the setting up of the agreement.
- 5 The development hereby approved may include the carrying out of work on the adopted highway. You are advised that before undertaking this work you must enter into a highway agreement with the Council under S278 of the Highways Act, 1980, specifying the extent of works, the works, and the terms and conditions under which these are carried out. Fees are payable for the drafting of the agreement, approval of the highway details and inspection of the works. For more information or to apply, please contact Highways Development Control at email HighwaysDC@barnsley.gov.uk or call to 01226 773555.
- 6 Street lighting design and installation is generally undertaken by the Local Highway Authority. There is a fee payable for this service and the applicant should make contact with the authorities Street Lighting Team, Tel 01226 770770. Email. Streetlightingdesign@barnsley.gov.uk as soon as possible.
- 7 Access arrangements including shared private drives should conform to Approved Document B Volume 1 Part B5 Sect. 13. They should be constructed to withstand a minimum carrying capacity of 26 Tonnes without deflection.
- 8 Fees associated with the required condition survey together with any necessary remedial works and any relevant S278 agreement are to be borne by the developer. The applicant should make contact with Highways Development Control, Tel. 01226 772033/772170. Email. HighwaysDC@barnsley.gov.uk for further information prior to commencement.

- 9 Road Licences - You are advised that the development hereby permitted requires you to dig up a road, pavement, or grass verge to install or replace service apparatus (gas pipes, electricity cables, sewers), or to place any equipment, materials in, on, above or abutting a highway requiring you to have a licence. No such works shall be undertaken on the public highway without the requisite licences and permissions in place. Further details are available on the BMBC website at: <https://www.barnsley.gov.uk/services/roads-travel-and-parking/road-licences/> or by contacting Streetworks@barnsley.gov.uk

10 Standard Drainage Requirements

We ask that all surface and foul water drainage from the development area be directed away from Network Rail's retained land and structures into suitable drainage systems, the details of which are to be approved by Network Rail before construction starts on site.

Water must not be caused to pond on or near railway land either during or after any construction-related activity.

The construction of soakaways for storm or surface water drainage should not take place within 20m of the Network Rail boundary. Any new drains are to be constructed and maintained so as not to have any adverse effect upon the stability of any Network Rail equipment, structure, cutting or embankment.

The construction of soakaways within any lease area is not permitted.

The construction of surface water retention ponds/tanks, SuDS or flow control systems should not take place within 20m of the Network Rail boundary where these systems are proposed to be below existing track level. Full overland flow conditions should be submitted to Network Rail for approval prior to any works on site commencing.

The construction of surface water retention ponds/tanks, SuDS or flow control systems should not take place within 30m of the Network Rail boundary where these systems are proposed to be above existing track level. Full overland flow conditions should be submitted to Network Rail for approval prior to any works on site commencing.

If a Network Rail-owned underline structure (such as a culvert, pipe or drain) is intended to act as a means of conveying surface water within or away from the development, then all parties must work together to ensure that the structure is fit for purpose and able to take the proposed flows without risk to the safety of the railway or the surrounding land.

Wayleaves and or easements for underline drainage assets

The position of any underline drainage asset shall not be within 5m of drainage assets, sensitive operation.

11 Fail Safe Use of Crane and Plant

All operations, including the use of cranes or other mechanical plant working adjacent to Network Rail's property, must at all times be carried out in a "fail safe" manner such that in the event of mishandling, collapse or failure, no materials or plant are capable of falling within 3.0m of the nearest rail of the adjacent railway line, or where the railway is electrified, within 3.0m of overhead electrical equipment or supports.

With a development of a certain height that may/will require use of a crane, the developer must bear in mind the following. Crane usage adjacent to railway infrastructure is subject to

stipulations on size, capacity etc. which needs to be agreed by the Asset Protection Project Manager prior to implementation.

Excavations/Earthworks

All excavations/ earthworks carried out in the vicinity of Network Rail property/ structures must be designed and executed such that no interference with the integrity of that property/ structure can occur. If temporary works compounds are to be located adjacent to the operational railway, these should be included in a method statement for approval by Network Rail. Prior to commencement of works, full details of excavations and earthworks to be carried out near the railway undertaker's boundary fence should be submitted for the approval of the Local Planning Authority acting in consultation with the railway undertaker and the works shall only be carried out in accordance with the approved details. Where development may affect the railway, consultation with the Asset Protection Project Manager should be undertaken. Network Rail will not accept any liability for any settlement, disturbance or damage caused to any development by failure of the railway infrastructure nor for any noise or vibration arising from the normal use and/or maintenance of the operational railway. No right of support is given or can be claimed from Network Rails infrastructure or railway land.

Please be aware that the Council monitors construction sites and open land within the vicinity of such sites in an attempt to prevent fly tipping (i.e. unauthorised deposit of waste on land), which is illegal under the Environmental Protection Act 1990. The penalties for fly-tipping can include:

- a fine of up to £50,000 and
- up to six months imprisonment on conviction.

Therefore, if necessary, please ensure that all demolition waste and waste associated with the construction of any development is disposed of via approved methods and that documents are retained to prove this.

Signed:

Dated: 18 August 2025

A handwritten signature in black ink, consisting of a stylized 'G' and 'H' followed by a horizontal line.

Garry Hildersley

Head of Planning, Policy & Building Control
Growth & Sustainability Directorate

The grant of this consent does not constitute or imply permission, approval or consent by the Local Authority for any other purpose.

NOTES:-

Appeals to the Secretary of State

If you are aggrieved by the decision of the Council to grant permission for the proposed development subject to conditions then you can appeal to the Secretary of State for the Environment, Transport and Regions under Section 78 of the Town and Country Planning Act. If you want to appeal, then you must do so within six months of the date of this notice, using a form which you can get from The Planning Inspectorate, Room 3/24 Hawk Wing, Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6PN.

The Secretary of State can allow a longer period for giving notice of an appeal, but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal. The Secretary of State need not consider an appeal if it seems to him that the Local Planning Authority could not have granted planning permission for the proposed development or could not have granted it without the conditions it imposed, having regard to the statutory requirements, to the provisions of the development order and to any directions giving under the order. In practice, the Secretary of State does not refuse to consider appeals solely because the Local Planning Authority based its decision on a direction given by him.

Purchase Notices

If either the Local Planning Authority or the Secretary of State for the Environment, Transport and Regions refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor can he render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted. In these circumstances, the owner may serve a purchase notice on the Council in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of part VI of the Town and Country Planning Act 1990.

Compensation

In certain circumstances compensation may be claimed from the Local Planning Authority if permission is refused or granted subject to conditions by the Secretary of State on appeal or on reference to the application to him. These circumstances are set out in Sections 114 and related provisions of the Town and Country Planning Act 1990.

STATUTORY BIODIVERSITY NET GAIN CONDITION

DEEMED CONDITION

(As required Schedule 7a of the Town and Country Planning Act 1990 (as amended) and inserted by the Environment Act 2021)

Development may not be begun unless:

1. A Biodiversity Gain Plan has been submitted to the planning authority; and
2. The Local Planning Authority has approved the plan.

The Biodiversity Gain Plan must include:

- a) information about the steps taken or to be taken to minimise the adverse effect of the development on the biodiversity of the onsite habitat and any other habitat;
- b) the pre-development biodiversity value of the onsite habitat;
- c) the post-development biodiversity value of the onsite habitat;
- d) any registered offsite biodiversity gain allocated to the development and the biodiversity and the biodiversity value of that gain in relation to the development;
- e) any biodiversity credits purchased for the development; and
- f) any such other matters as the Secretary of State may by regulations specify.

In addition, under Articles 37C(2) and 37C(4) of The Town and Country Planning (Development Management Procedure) (England) Order 2015, the following specified matters are required, where development is not to proceed in phases:

- g) name and address of the person completing the Plan, and (if different) the person submitting the Plan;
- h) a description of the development and planning permission reference number (to which the plan relates);
- i) the [relevant date](#), for the purposes of calculating the pre-development biodiversity value of onsite habitats and if proposing an earlier date, the reasons for using this earlier date;
- j) [the completed biodiversity metric calculation tool\(s\)](#), stating the publication date of the tool(s), and showing the calculation of the pre-development onsite value on the [relevant date](#), and post-development biodiversity value;
- k) a description of arrangements for maintenance and monitoring of habitat enhancement to which paragraph 9(3) of Schedule 7A to the 1990 Act applies (habitat enhancement which must be maintained for at least 30 years after the development is completed);
- l) (except for onsite irreplaceable habitats) a description of how the biodiversity gain hierarchy will be followed and where to the extent any actions (in order of priority) in that hierarchy are not followed and the reason for that;
- m) pre-development and post-development plans showing the location of onsite habitat (including any irreplaceable habitat) on the [relevant date](#), and drawn to an identified scale and showing the direction of North;
- n) a description of any [irreplaceable habitat](#) on the land to which the plan relates which exist on the [relevant date](#), and any part of the development for which planning permission is granted where the onsite habitat of that part is irreplaceable habitat arrangements for compensation for any impact the development has on the biodiversity of the irreplaceable habitat; and
- o) if [habitat degradation](#) has taken place:
 - i. a statement to this effect,
 - ii. the date immediately before the degradation activity,
 - iii. the completed biodiversity tool showing the calculation of the biodiversity value of the onsite habitat on that date, and
 - iv. any available supporting evidence for the value.

INFORMATIVE 1

When calculating the post-development biodiversity value of a habitat, the Local Planning Authority can only take into account an increase in biodiversity value post-development where it is satisfied that the habitat creation or enhancements delivering the increase will be maintained for at least 30 years after the development is completed. This must be secured either by a planning condition, planning obligation, or conservation covenant

INFORMATIVE 2

The General Biodiversity Gain Condition has a separate legal basis in contrast to other planning conditions and will apply to all planning permissions, unless exempt. The General Biodiversity Gain Condition will therefore not appear on the decision notice along with the list of planning conditions imposed on the application, rather it will be referenced separately.

The General Biodiversity Gain Condition cannot be varied or removed by an application under section 73 of the Town and Country Planning Act. It also cannot be discharged as part of the grant of planning permission.

INFORMATIVE 3

A Biodiversity Net Gain Template can be found here:

<https://www.gov.uk/government/publications/biodiversity-gain-plan>

INFORMATIVE 4

The statutory deemed condition above is relevant to all major applications submitted since 12th February 2024 and to all non-major applications submitted after 2nd April 2024, unless exempt.

The onus is on the applicant/agent to notify the Local Planning Authority at developmentmanagement@barnsley.gov.uk if the application was exempt and provide the reasons for the exemption. Exemptions can be found at this link <https://www.gov.uk/guidance/biodiversity-net-gain-exempt-developments>
