Dear Mr Clynch

**BOARDING ESTABLISHMENT LICENCE**

Thank you for your enquiries and for informing us of your proposals to apply for a new boarding kennels establishment to be built at or alongside the existing Windmill Nursery premise at Whitley Road, Millhouse Green owned by Mrs Katherine Goldthorpe.

We discussed the new business and the contribution it would make to the authority as regarding the creation of jobs. Any advice regarding the environmental issues of noise pollution should be sought from my Environmental Health colleagues who can be contacted on 772468. Also discussed was the road and its accessibility already used for the nursery, and the application for planning permission.

The Animal Health section of this Service would have no objections as to the location of the site and will offer support and advice to you in your application for a licence. I informed you that a licence will only be granted following an inspection by an animal health officer and a vet who have to be satisfied that all the requirements of the Model licensing conditions and the relevant legislation have been met..

If you need further information or need to discuss this further please contact me

All enforcement carried out by the Service is in accordance with the Regulatory Services Enforcement Policy. If you would like a copy of the policy please contact 01226 772468.

Yours faithfully

Derek E Green
