Dear Sir

Re Landfill information - Dodworth Road, Barnsley

Further to your fax requesting environmental information for the above site, I can now supply you with following details.

Landfill Information
Our records show two closed landfill sites, one on the above site, the other on the land on the other side of Dodworth Road.

Ref - 131
Address - SR Gents, Dodworth Road, Barnsley
It appears there used to be a former clay quarry on the site. We have no details of what material was placed within the site. However, monitoring undertaken in 1990 revealed elevated levels of both Methane and Carbon Dioxide. Due to this fact, the closed landfill was given a category 1 status, due to the fact the gases were detected on the site.

Ref - 130
Address - land off Dodworth Road, Barnsley
This site was also a quarry and brickworks. Again, we have no details of what material was placed within the site. However, monitoring undertaken in 1990 revealed elevated levels of both Methane and Carbon Dioxide. Due to this fact, the closed landfill was given a category 1 status, due to the fact the gases were detected on the site.

Unfortunately, as I discussed with you, we have no other details about what waste material were placed within either site, or when these sites were operational.

I must inform you that the Council make a charge for supplying this information and you will be invoiced accordingly in due course. This charge will be £25 as agreed.
