Viewpoint No 1: Whitley Common

Viewpoint is located within the Yorkshire Southern Pennine Fringe LCA and Ingbirchworth Upland Farmland LLCA. Views are representative of those recreational receptors using the public footpath and bridleway, and local road users within the Area of Borough Landscape Value.

A computer generated wireframe from the same viewpoint is illustrated in the centre.

A photomontage illustrating the wind farm from this viewpoint is illustrated at the bottom of the page.

The wireframe and photograph of Royd Moor differ slightly due to slightly different co-ordinates used for the construction of the turbines.

Photo Taken February 2007

Wireframe

Photomontage

Viewpoint No 11: Millhouse Green, B6106

Viewpoint is located within the Yorkshire Southern Pennine Fringe LCA and Ingbirchworth Upland Farmland LLCA. Views are representative of local road users within the Area of Borough Landscape Value. A computer generated wireframe from the same viewpoint is illustrated in the centre. A photomontage illustrating the wind farm from this viewpoint is illustrated at the bottom of the page. Due to inconsistences with the digital terrain data and the actual landform in view, the wireframe does not accurately represent the landform in the foreground.

The wireframe and photograph of Royd Moor differ slightly due to slightly different co-ordinates used for the construction of the turbines. Photo Taken February 2007

Blackstone Edge viewpoint parameters:

Grid reference:	E421 575, N403 204	Angle of view:	90°
Elevation:	228 m AOD	Viewing distance:	24.4cm @ A3
Distance to nearest turbine:	Turbine 3 @ 2624m	Number of hubs visible (in wireframe)	10
Distance to nearest visible turbine:	Turbine 3 @ 2624m	Number of blade tips visible (in wireframe)	18
