Works Supervisor:	Richard Bell	Role/Trade	Supervisor	Tel:	07811 561944
The parking of vehicles of site operatives and visitors	They will be directed to public car parks adjacent to the site				
Any temporary access to the site	No temporary access required as there is a permanent, private hard surface access to the site				
Loading and unloading of plant and materials	These will be carried out via the private access road				
Storage of plant and materials used in constructing the development	On site (secure)				
Arrangements to receive abnormal loads or unusually large vehicles	On site traffic marshals, again using private access road				
Methods of communicating the Construction Management Plan to the workforce, visitors and neighbouring residents and businesses	On site noticeboard in a visible position to workforce and public				
Measures to prevent mud/debris being deposited	Site is covered in compacted hardcore, thus reducing the risk of mud transfer from site to road. In extreme circumstances, dirty vehicles will be cleaned on private access road before entering main highway.				

on the public highway	
Dust Suppression	Dust will be kept to a minimum during construction with use of a water spray suppression system when required
Emergency procedures	Following site emergency procedures at all times. In the event of a fire - Civilian emergency number 999 In the event of an accident - All accidents, incidents must be reported to Richard Bell
Environmental Considerations	All waste materials to be cleared away. Materials are to be stored in a designated area on site or within the building.
Protection of others and public	Signs to be erected around the work area.
Risk Assessments	To be carried out on a daily basis by sit manager

All work will be undertaken by competent persons with experience of the type of work described, and in all cases in full accordance with safety procedures and Health and Safety guidelines.
