Dear Mr. Searles

Re: Town and Country Planning Environmental Impact Assessment (England and Wales) Regulations 2011, Section 13(1) – Scoping Opinion Request

Ref: 2014/ENQ/00148 - Proposed timber resource recovery centre and anaerobic digestion facility, land off Houghton Main Colliery roundabout, Park Springs, Barnsley

I write to confirm that the proposed scope of the Environmental Statement is considered to be generally acceptable to the Council, subject to adjustments to take into account the consultation responses received from the Environment Agency and our Biodiversity Officer. In addition I confirm that the Council agrees with the statement in paragraph 7.4 that a Human Health Risk Assessment (HHRA) would not be required in this case and can be 'screened out' of the process.

In coming to this decision the Local Planning Authority has had regard to the proposed scope of the work for the Environmental Statement set out in the applicant's EIA Scoping Report which are agreed should be scoped-in, the issues raised in the consultation responses and the requirements of paragraph 6 of the 2011 Regulations.

Please note however that the issuing of this scoping opinion does not prevent the Local Planning Authority from requesting further information at a later stage under paragraph 9 of the 2011 Regulations.

Yours sincerely

Andrew Burton, Senior Planning Officer (Outer Area Team)
For and on behalf of the Head of Planning, Building Control and Sustainability
