

GRANT OF PLANNING PERMISSION

TOWN AND COUNTRY PLANNING ACT 1990

APPLICATION NO. 2024/0879

To DPA Planning Ltd
4100 Park Approach
Leeds
LS15 8GB

DESCRIPTION Consolidation of existing retail space at ground floor to create 3 retail units and addition of new storey to building to create 7 apartments

LOCATION Nu Well Shopping Mall, Summer Lane, Wombwell, Barnsley, S73 0DR

Permission is **granted** for the proposals which were the subject of the Application and Plans registered by the Council on 03/12/2024 and described above.

The approval is subject on compliance with the following conditions:

- 1 The development hereby permitted shall be begun before the expiration of 3 years from the date of this permission.
Reason: In order to comply with the provision of Section 91 of the Town and Country Planning Act 1990.
- 2 The development hereby approved shall be carried out strictly in accordance with the amended plans (Nos. Existing Elevations P24-00619-MET-EXT-XX-ELE-M2-B-001 Rev 01; Existing Floor P24-00619-MET-INT-G-FP-M2-B-001 Rev 01; Existing Roof P24-00619-MET-EXT-XX-RFP-M2-B-001-Rev 01; P24-00619-MET-INT-XX-SEC-M2-B-001 Rev 01; Existing Site Plans 4003-01A; Site Plan BLD/458/SP; Proposed Plans 4003-05F; Proposed Elevations 4003-06G; NIA-11863-24-12091-v1) and specifications as approved unless required by any other conditions in this permission.
Reason: In the interests of the visual amenities of the locality in accordance with Local Plan Policy D1 High Quality Design and Place Making.
- 3 During works, construction or demolition related activity shall only take place onsite between the hours of 0800 to 1800 Monday to Friday and 0900 to 1400 on Saturdays and at no time on Sundays or Bank Holidays
Reason: To reduce or remove adverse impacts on health and the quality of life, especially for people living and/or working nearby, in accordance with Local Plan Policy POLL1

- 4 Before use of the development commences, the mitigation measures described in the report 'Proposed New Residential Over Retail Units Former NU Well Shopping Centre, Corner of Summer Lane and House Lane, Wombwell, Barnsley, S73 0DQ Noise Impact Assessment' produced by Environmental Noise Solutions Limited, dated 20th January 2025, ref: NIA-11863-24-12091-v1 NU Well Shopping Centre, Wombwell, shall be implemented and retained as such thereafter.

Reason: To reduce or remove adverse impacts on health and the quality of life in accordance with Local Plan Policy POLL1

- 5 Areas to be used by vehicles shall be surfaced in a solid bound material (i.e. not loose chippings) and made available for the access, parking and manoeuvring of motor vehicles prior to the development being brought into use, and shall be retained for said purposes at all times. Adequate measures shall be so designed into the proposed vehicular areas to avoid the discharge of surface water from the site on to the highway.

Reason: To ensure that there are adequate vehicular facilities to serve the development which are constructed to an acceptable standard; to ensure adequate provision for the disposal of surface water and to prevent mud/debris from being deposited on the public highway and to prevent the migration of loose material on to the public highway to the detriment of road safety and in accordance with Local Plan Policy T4 New Development and Transport Safety.

- 6 Prior to the development being brought into use, the parking facilities shall be laid out, including lining and any necessary signage, in accordance with the submitted plans and shall be retained for said purpose at all times.

Reason: To ensure that there are appropriate parking facilities to serve the development in the interests of highway safety and in accordance with Local Plan Policy T4 New Development and Transport Safety.

- 7 No works shall commence on site until a scheme for the parking of bicycles complying with LTN 1/20 Cycle Infrastructure Design has been submitted to and approved in writing by the Local Planning Authority. The scheme shall be fully implemented before the development is first occupied (or brought into use) and thereafter retained for this purpose.

Reason: In the interests of encouraging the use of sustainable modes of transport in accordance with Local Plan Policy T3.

- 8 No development shall take place until a Construction Environmental Management Plan - Biodiversity (CEMP-B) has been submitted to and approved in writing by the local planning authority. The CEMP-B shall include, but not necessarily be limited to, the following:
- o A risk assessment of potentially damaging construction activities;
 - o The identification of 'biodiversity protection zones';
 - o An invasive non native species management plan to ensure cotoneaster is not spread in the wild;
 - o Practical measures (both physical measures and precautionary working practices) to avoid or reduce impacts during construction to habitats and species (which may be provided as a set of method statements);
 - o The location and timing of sensitive works to avoid harm to retained biodiversity features (e.g. daylight working hours only starting one hour after sunrise and ceasing one hour before sunset);
 - o The use of protective fences, exclusion barriers and warning signs, including advanced installation and maintenance during the construction period;
 - o The times during construction when specialist ecologists need to be present on site to oversee works;
 - o Responsible persons and lines of communication;
 - o The role and responsibilities on site of an Ecological Clerk of Works (ECoW) or similarly competent person(s);
- The approved CEMP-B shall be adhered to and implemented throughout the construction period strictly in accordance with the approved details.

Reason: in the interests of Biodiversity and in accordance with Local Plan Policy BIO 1 and SPD Biodiversity and Geodiversity.

- 9 The development shall be carried out in accordance with the following additional biodiversity mitigation and enhancement measures, for which a scheme shall be submitted to and approved in writing by the local planning authority, prior to commencement of the development. The scheme will include the measures listed below and shall be implemented upon completion of the development. The features shall thereafter be permanently retained.
- o Integrated bat, bird and invertebrate boxes shall be installed in suitable locations on site.

Reason: in the interests of Biodiversity and in accordance with Local Plan Policy BIO 1 and SPD Biodiversity and Geodiversity.

- 10 The retail premises hereby approved shall only be open to the public between the hours of 8:00 AM and 10:00 PM Monday to Saturday, and between 9:00 AM and 6:00 PM on Sundays and Bank Holidays. Outside of these hours, the premises shall remain closed to the public.
- Reason: To reduce or remove adverse impacts on health and the quality of life, especially for people living and/or working nearby, in accordance with Local Plan Policy POLL1**

Informative(s)

Pursuant to article 35 (2) of the Town and Country Planning (Development Management Procedure) Order 2015 (as amended), the Local Planning Authority have, where possible, made a pre-application advice service available, and otherwise actively engaged with the applicant in dealing with the application in a positive and proactive manner.

- 1 The granting of planning permission does not in any way infer that consent of the landowner is given. Therefore, the consent of all relevant landowners is required before proceeding with any development, including that of the Council as landowner.

If it should transpire that the applicant does not own any of the land included in this consent, then it is the responsibility of the applicant to seek all necessary consents and approvals of the landowner.

- 2 The proposed development lies within a coal mining area which may contain unrecorded coal mining related hazards. If any coal mining feature is encountered during development, this should be reported immediately to the Mining Remediation Authority on 0345 762 6848, or if a hazard is encountered on site call the emergency line on 0800 288 4242.

Further information is also available on the Mining Remediation Authority website at: www.gov.uk/government/organisations/mining-remediation-authority

- 3 The applicant/contractor should note that to deposit mud/debris on the public highway, or anything which may cause a nuisance or possible danger to road users, is an offence under provisions of the Highways Act 1980.
- 4 Vegetation clearance should be undertaken outside of the bird nesting season (March-August inclusive). Should this not be possible then a suitably qualified ecologist should undertake a nesting bird check no more than 48 hours prior to the start of works. Should active nests be found, works should cease until the nests are no longer active and the chicks have fledged and the ecologist has deemed the area to be free of nesting birds.

If a protected species (such as any bat, amphibian, badger or any nesting bird) is discovered using a feature on site that would be affected by the development or related works all activity which might affect the species at the locality should cease. You should then seek the advice of a suitably qualified and experienced ecologist and consider the need for a licence from Natural England prior to commencing works. This action is necessary to avoid possible prosecution and ensure compliance with the Wildlife & Countryside Act 1981 (as amended), the Conservation of Habitats and Species Regulations 2017 (as amended), the Protection of Badgers Act 1992 and the Wild Mammals Act 1996. This advice note should be passed on to any persons or contractors carrying out the development/works.

If a bat or evidence of the presence of bats is discovered on site prior to or during development all work should stop immediately. A licensed bat consultant or Natural England must be contacted and works implemented only in accordance with methods advised by them. This advice note should be provided to any persons/contractors carrying out the development along with the contact details of a relevant ecological consultant. This action is necessary to avoid possible prosecution and ensure compliance with the Wildlife & Countryside Act 1981 (as amended), The Conservation of Habitats and Species Regulations 2017.

- 5 If a protected species (such as any bat, amphibian, badger or any nesting bird) is discovered using a feature on site that would be affected by the development or related works all activity which might affect the species at the locality should cease. You should then seek the advice of a suitably qualified and experienced ecologist and consider the need for a licence from Natural England prior to commencing works. This action is necessary to avoid possible prosecution and ensure compliance with the Wildlife & Countryside Act 1981 (as amended), the Conservation of Habitats and Species Regulations 2017 (as amended), the Protection of Badgers Act 1992 and the Wild Mammals Act 1996. This advice note should be passed on to any persons or contractors carrying out the development/works.

Please be aware that the Council monitors construction sites and open land within the vicinity of such sites in an attempt to prevent fly tipping (i.e. unauthorised deposit of waste on land), which is illegal under the Environmental Protection Act 1990. The penalties for fly-tipping can include:

- a fine of up to £50,000 and
- up to six months imprisonment on conviction.

Therefore, if necessary, please ensure that all demolition waste and waste associated with the construction of any development is disposed of via approved methods and that documents are retained to prove this.

Signed:

Dated: 12 December 2025

A handwritten signature in black ink, consisting of a stylized 'G' and 'H' followed by a horizontal line.

Garry Hildersley

Head of Planning, Policy & Building Control
Growth & Sustainability Directorate

The grant of this consent does not constitute or imply permission, approval or consent by the Local Authority for any other purpose.

NOTES:-

Appeals to the Secretary of State

If you are aggrieved by the decision of the Council to grant permission for the proposed development subject to conditions then you can appeal to the Secretary of State for the Environment, Transport and Regions under Section 78 of the Town and Country Planning Act. If you want to appeal, then you must do so within six months of the date of this notice, using a form which you can get from The Planning Inspectorate, Room 3/24 Hawk Wing, Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6PN.

The Secretary of State can allow a longer period for giving notice of an appeal, but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal. The Secretary of State need not consider an appeal if it seems to him that the Local Planning Authority could not have granted planning permission for the proposed development or could not have granted it without the conditions it imposed, having regard to the statutory requirements, to the provisions of the development order and to any directions giving under the order. In practice, the Secretary of State does not refuse to consider appeals solely because the Local Planning Authority based its decision on a direction given by him.

Purchase Notices

If either the Local Planning Authority or the Secretary of State for the Environment, Transport and Regions refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor can he render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted. In these circumstances, the owner may serve a purchase notice on the Council in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of part VI of the Town and Country Planning Act 1990.

Compensation

In certain circumstances compensation may be claimed from the Local Planning Authority if permission is refused or granted subject to conditions by the Secretary of State on appeal or on reference to the application to him. These circumstances are set out in Sections 114 and related provisions of the Town and Country Planning Act 1990.

STATUTORY BIODIVERSITY NET GAIN CONDITION

DEEMED CONDITION

(As required Schedule 7a of the Town and Country Planning Act 1990 (as amended) and inserted by the Environment Act 2021)

Development may not be begun unless:

1. A Biodiversity Gain Plan has been submitted to the planning authority; and
2. The Local Planning Authority has approved the plan.

The Biodiversity Gain Plan must include:

- a) information about the steps taken or to be taken to minimise the adverse effect of the development on the biodiversity of the onsite habitat and any other habitat;
- b) the pre-development biodiversity value of the onsite habitat;
- c) the post-development biodiversity value of the onsite habitat;
- d) any registered offsite biodiversity gain allocated to the development and the biodiversity and the biodiversity value of that gain in relation to the development;
- e) any biodiversity credits purchased for the development; and
- f) any such other matters as the Secretary of State may by regulations specify.

In addition, under Articles 37C(2) and 37C(4) of The Town and Country Planning (Development Management Procedure) (England) Order 2015, the following specified matters are required, where development is not to proceed in phases:

- g) name and address of the person completing the Plan, and (if different) the person submitting the Plan;
- h) a description of the development and planning permission reference number (to which the plan relates);
- i) the [relevant date](#), for the purposes of calculating the pre-development biodiversity value of onsite habitats and if proposing an earlier date, the reasons for using this earlier date;
- j) [the completed biodiversity metric calculation tool\(s\)](#), stating the publication date of the tool(s), and showing the calculation of the pre-development onsite value on the [relevant date](#), and post-development biodiversity value;
- k) a description of arrangements for maintenance and monitoring of habitat enhancement to which paragraph 9(3) of Schedule 7A to the 1990 Act applies (habitat enhancement which must be maintained for at least 30 years after the development is completed);
- l) (except for onsite irreplaceable habitats) a description of how the biodiversity gain hierarchy will be followed and where to the extent any actions (in order of priority) in that hierarchy are not followed and the reason for that;
- m) pre-development and post-development plans showing the location of onsite habitat (including any irreplaceable habitat) on the [relevant date](#), and drawn to an identified scale and showing the direction of North;
- n) a description of any [irreplaceable habitat](#) on the land to which the plan relates which exist on the [relevant date](#), and any part of the development for which planning permission is granted where the onsite habitat of that part is irreplaceable habitat arrangements for compensation for any impact the development has on the biodiversity of the irreplaceable habitat; and
- o) if [habitat degradation](#) has taken place:
 - i. a statement to this effect,
 - ii. the date immediately before the degradation activity,
 - iii. the completed biodiversity tool showing the calculation of the biodiversity value of the onsite habitat on that date, and
 - iv. any available supporting evidence for the value.

INFORMATIVE 1

When calculating the post-development biodiversity value of a habitat, the Local Planning Authority can only take into account an increase in biodiversity value post-development where it is satisfied that the habitat creation or enhancements delivering the increase will be maintained for at least 30 years after the development is completed. This must be secured either by a planning condition, planning obligation, or conservation covenant

INFORMATIVE 2

The General Biodiversity Gain Condition has a separate legal basis in contrast to other planning conditions and will apply to all planning permissions, unless exempt. The General Biodiversity Gain Condition will therefore not appear on the decision notice along with the list of planning conditions imposed on the application, rather it will be referenced separately.

The General Biodiversity Gain Condition cannot be varied or removed by an application under section 73 of the Town and Country Planning Act. It also cannot be discharged as part of the grant of planning permission.

INFORMATIVE 3

A Biodiversity Net Gain Template can be found here:

<https://www.gov.uk/government/publications/biodiversity-gain-plan>

INFORMATIVE 4

The statutory deemed condition above is relevant to all major applications submitted since 12th February 2024 and to all non-major applications submitted after 2nd April 2024, unless exempt.

The onus is on the applicant/agent to notify the Local Planning Authority at developmentmanagement@barnsley.gov.uk if the application was exempt and provide the reasons for the exemption. Exemptions can be found at this link <https://www.gov.uk/guidance/biodiversity-net-gain-exempt-developments>
