Following building inspection works carried out by NPS at the request of BMBC it was established significant immediate remedial works were required including full refurbishment, electrical safety works, roof replacement and works to ensure compliance with DDA and fire safety regulations . As such, it was deemed these works were not cost effective, the Pavilion was condemned and it is to be demolished by Barnsley Council. In order for the club to continue playing football at these locations, temporary welfare facilities including changing rooms, toilets and kitchen /canteen area created from steel containers are required along with the provision of a suitable level doorway and access It is expected that these temporary facilities will be required for up to 5 years until Barnsley Council have demolished the pavilion and sufficient funding has been secured to build a new suitable facility. The containers consist of a toilet block 20' x10' with both men's, women's and accessible facilities, a 20' x 10' container for the storage of necessary grounds maintenance and football equipment, a 32' x 12' steel office unit to be used as a canteen / kitchen and a 40' x12' steel container to be converted into changing facilities. This application is therefore phased, phase one is to gain permission to site the containers and run a power supply to them and the creation of accessible footpaths and entrances into the facilities used by members of the public. Phase 2 will include the demolition of the pavilion and phase 3 will be the construction of a new facility to include changing rooms, toilets, a kitchen / bar area and canteen and possibly an indoor sports hall to be made available for public use (funding permitting) and the removal of the temporary container facilities.
