Grafo-Therm anti-condensation treatment supplied exclusively to LidgetCompton in the sectional garage market

Tip

You can include a shed/ workshop/garden room in your garage – simply specify a partition, and you can create a space with endless possibilities.

...o.uk

Our value for money flat roof garage, roof sloping from front to rear, single, double, twin garages, up to 28' 3" (8.61m) long.

Unique C Section galvanised steel rafters give you greater strength and rigidity while galvanised steel one piece roof sheets (up to 20' 6" (6.25m)) means no joins, so no leaks. Anti condensation treatment ensures best performance.

Hörmann Fully retractable, fully pre-framed door ensures perfect fitting every time.

Despite our Pent garage range giving the best value for money, we have not cut back on quality. The best quality materials ensure your investment continues to give the best value for money, year after year.

The best garage range in the UK?

Bespoke Options allow you to personalise your building. Spar, Brick or Stone effect panels, site applied Textured finish. RealBrick front posts and the full range of bespoke options ensure that you can choose the right building for your house, which will enhance its value, minimise insurance costs, and maximise kerb appeal. PVCu options give you a maintenance free choice.
