Arboricultural Statement and Specification

This statement relates to 7 no. trees (T1 – 7 in following specification) situated in the open grassed area between Westgate and the main entrance of the court building.

I met with Edward Jowett of Barnsley Metropolitan Borough Council on the 6th of December 2011 to agree the following specification.

The reason for the work is routine maintenance as the trees have regrown after previous works. The works entail the pruning of lower branches (crown raising) to facilitate access for grass cutting, the removal of dead wood as a safety measure (crown clean), crown thinning, and small remedial works to poor quality pruning that has taken place in the past.

Specification.

T1. Willow – crown clean, crown lift to 2.5m, and reprune poor quality finishing cuts
T2. Sycamore –
T3. Rowan – (3no.) thin crown by 15% crown lift to 2.5m
T4. Purple Plum – crown lift to 2.5m
T5. Maple – crown lift to 2.5m
T6. Rowan – remove collapsed limb and crown thin remaining crown by 15%
