Design and Access Statement 6 Gawber road:

In January 2019 i removed a small 1m wall to the front of my property and had my drive patio'd to increase parking space and aesthetic of property. There was previously a raised parking spcae there when i bought the property and my neighbours adjacent at no.4 also had a parkable drive.

Being a first time homeowner and given the small adjustments involved i was unaware i had to apply for planning permission and apologise for making these changes without first going through the proper channels.
