Application Number
2009/0028

Erection of a rear external steel staircase to flat above shop.

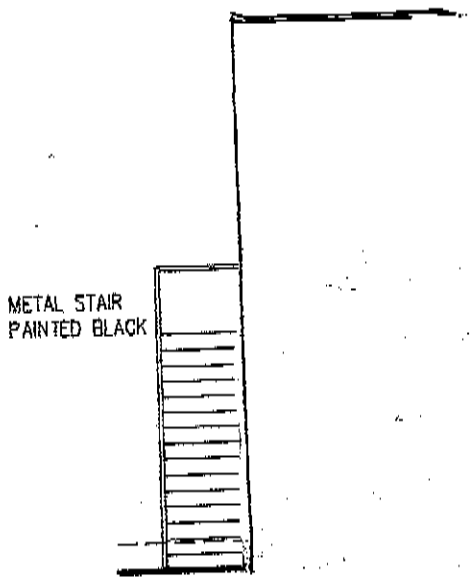

Access to the site is down the side of no 1 Sparklane mapplewell, this gives access to the rear of no 1 and no 3 Sparklane.

The reason for the erection of the steel staircase is to gain access to the first floor apartment, which was previously accessed via the fish and chip shop at no 3 Sparklane. The shop and living accomodation was previously rented by the same person, but I would like to rent them out seperatly therefore they both need their own private access.

The proposed staircase is to be made of Steel and painted black.

Scale
1:100
