☒ Yes ☐ No

Are you wishing to carry out works to tree(s) in a conservation area?

☐ Yes ☒ No

6. Tree Preservation Order Details

If you know which TPO protects the tree(s) enter its title or number below

TPO 1/1951 and the wider parkland setting

7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).

Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

Cannon Hall Museum stands as a superb example of a Georgian estate. Its heritage value and significance are formally recognised and the hall itself is Grade II* listed and there are no less than 10 structures and buildings on the estate listed as Grade II. Cannon Hall was originally built as a large country house in the 1690s with its hall, extensive park and intricate walled gardens and transformed by John Spencer and nephew William Spencer-Stanhope in full Georgian splendour. Publicly owned since the 1950s Cannon Hall now enjoys several hundred thousand visitors each year who come from the local surrounding area and sometimes much further afield to enjoy this wonderful Georgian treasure.

Cannon Hall Park and Gardens are currently the focus of a major, Heritage Lottery supported, £3.7 million project 'Restoring the Glory, Revealing the Secrets' that will restore much of Cannon Hall's historic park and gardens to the former glory of their Georgian heyday and reveal their many secrets. It will involve work to key listed buildings and structures within the historic landscape which all have Planning Permission granted in 2016 referenced on Barnsley Metropolitan Borough Council's planning portal 2016/0633 and 2016/0758.

There are further works required such as footpaths, fencing, land drainage, and desilting the three lakes, however this application is in relation to the tree removal and desilting, in particular where the silt will be distributed and the detail of what trees will be affected, ones to be removed and how the trees to be retained will be protected.

There are a number of surveys which have been carried out to inform our decisions, such as flora and fauna, paying particular attention to water vole, great crested newt and bats, site meetings have been held with Trevor Mayne Borough Ecologist. The Garden Trust has been consulted and have no objections to the proposals.

The surveys available are attached, the upper canopy bats survey has been carried out but we are just waiting for the report which will be available shortly.

Our intention is to restore the original Georgian lake system, re-establishing original vistas, improving landscape and water quality and supporting biodiversity.

Trees highlighted in red are to be removed.

8. Trees - Additional Information

For all trees

A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer.
