Proposed 9 Residential Development House at Land Rear of 4 – 6 Warren Walk, Royston

To whom it may concern,

One of my clients for the above stated scheme as asked that a condition be placed in the planning approval if we are success and that it should read the following:

The solar panels to 40 Rushton Drive are to be removed set aside and placed on the House type 5 with the additional playroom at ground floor. This property is to be constructed before the demolition of 40 Rushton Drive and any other works that are to take place on the site.

If you require any further information or clarification please do not hesitate to contact me.

Yours faithfully,

[redacted]
