

To whom it may concern,

Application number: 2020/1124

Description: Crown thinning and Crown lifting of a Sycamore Tree

Location: 3 Strafford Walk, Dodworth, Barnsley, S75 3RB

Our initial application was invalid and was unable to be processed due to reasoning:

‘Works need quantified: Please provide details of the height above ground level the tree is to be lifted and the amount of material in terms of a percentage to be removed as part of the thinning works to be provided.’

I hope the following information will be accepted in accepting our application.

The crown would need to be lifted to 3 metres, which means that it will be 3 metres off the ground before any branches. We would like a 20% crown thin to be provided.

I hope this email reaches you well and I look forward to your correspondence.

Kind regards,
