Dear Sir / Madam,

Ref: PP-11031127

4660 Darfield Barnsley – Design & access Statement

We would like to propose new packaged gas cooler and 3x Ac units at our Tesco Express Store along with new 2.4M high Timber Fence with door for access at sides and 2.4 high timber above the retaining wall at rear.

The above will be installed under controlled, safe condition under the inspection of a project Principle Designer, taking into account access via customers, colleagues or deliveries being of as minimal impacts as reasonably possible.

Kinds Regards

Andy Horwood
