Consultation Assessment and Justification

Thank you for consulting Highways Development Control on this application which seeks permission for the change of use of part of an existing office building to accommodate Sui Generis use.

The application site is located within an established business court, with the proposed change of use to accommodate a chauffeur business operating up to two vehicles. The site benefits from allocated parking spaces associated with each unit and, having regard to the nature of the proposal and the availability of onsite parking, there are no highway objections to the development.

Many thanks,

Sarah Sharp
