Weight per 1000	2.0 tonnes (Duchess)
Quantity per pallet	750
Weight/Tile	2.0 KG (Duchess)
Minimum Roof Pitch	20° (Duchess)

More details

The BritSlate is made from recycled natural British slate, pulverised and re-formed in two traditional slate sizes with a riven appearance and dressed edges.

Feedback

The main advantages of the BritSlate Roof tile are:

- Two plain slate alternatives to BritLock®, also made using 80% natural UK slate
- BritSlate offers the random visual appearance of natural slate without the need for costly sorting and holing. Its large format means you only need 17 tiles per m²
- A double lap slate with all the proportions and detail as natural slate

Remember: We can supply a wide range of other building materials including blocks, lintels & wallties so let us know if you have any other requirements.

NOTE: Product may vary from image, we strongly recommend you obtain a sample brick before placing your order. Bricks are perforated or frogged unless stated as solid or otherwise. We cannot be held responsible if an order is placed without obtaining a sample and the bricks then being deemed not suitable when they arrive.

Return Haulage & Re-stocking charges will apply where applicable in such instances.

When calculating the quantity of bricks you need we recommend that you allow an extra 5% for wastage.

For more information please see our [Terms & Conditions](#))
