

[illegible]

This architectural drawing shows the front elevation of a building. On the left, a gabled section features a chimney and a door. To its right is a section with two windows. Further right is a section with a single window and a horizontal siding detail. The building is rendered with a brick pattern and a simple line drawing style.

A line drawing of a single-story house. The house has a gabled roof with a chimney on the left side. The front facade features a central door with a small arched window above it. To the left of the door is a large window with a small arched window above it. To the right of the door is another large window with a small arched window above it. The house is surrounded by a lawn and a sidewalk.

This architectural elevation drawing shows a two-story residential building. The structure features a gabled roof with two chimneys. The exterior walls are depicted with a brick pattern. On the left side, there is a large multi-paned window on the ground floor and a smaller window above it. The central part of the house has a prominent front door with a small porch, flanked by windows. To the right, there are two arched windows on the ground floor. The drawing uses simple lines and hatching to represent different materials and architectural details.
