

Design & Access For Squires, Barnsley

DESIGN: As the property has since been re-named it is only right that it has some form of signage to promote the business.

In keeping with Marstons Brewery corporate identity, they have opted for a more bespoke & sympathetic approach to signage solutions for its properties, taking into account the style, age and overall appearance of the property.

We have therefore used more traditional materials such as HDU & Dibond and also the colour & fonts which are more in keeping with the area and the appearance of the building.

With regard to the lighting we propose to use 150w sodium fittings & 40w lanterns which will give an ambient amber glow, evenly washing the facade of the building, rather than just highlighting the signage.

Access: Access will be made from the front of the property.
