## Limitations

The assessments and interpretation have been made in line with legislation and guidelines in force at the time of writing, representing best practice at that time.

All of the comments and opinions contained in this report, including any conclusions, are based on the information obtained by Johnson Mowat Planning Limited during our investigations.

Except as otherwise requested by the Client, Johnson Mowat Planning Limited is not obliged and disclaims any obligation to update the report for events taking place after:

- a) the date on which this assessment was undertaken; and
- b) the date on which the final report is delivered.

Johnson Mowat Planning Limited makes no representation whatsoever concerning the legal significance of its findings or to other legal matters referred to in the following report.

This report has been prepared for the sole use of Crest Nicholson. No other third parties may rely upon or reproduce the contents of this report without the written permission of Johnson Mowat Planning Limited. If any unauthorised third party comes into possession of this report they rely on it at their own risk and the authors do not owe them any Duty of Care or Skill.

Appendix 1. Johnson Mowat's Barnsley Supply Assessment Sheets 2025 - 2030

Appendix 2. Barnsley Council Supply Assessment Sheets 2024-2029

## 1. Introduction

- 1.1 This Housing Supply Report is prepared on behalf of Crest Nicholson in to support their planning application in relation to Land to the south of Pit Lane, Wombwell.
- 1.2 This report seeks to assess the current housing land supply position within the Barnsley Local Authority borough. The National Planning Policy Framework (the Framework) is clear at paragraph 78 of the National Planning Policy Framework is clear that Local Planning Authorities should annually update a supply of specific deliverable sites sufficient to provide a minimum of five years' worth of housing.
- 1.3 The Council's last formal published position on the authority's website, *Barnsley Five Year Deliverable Housing Land Supply Report April 2021 – March 2026*, covers the period 1<sup>st</sup> April 2021- 31<sup>st</sup> March 2026 (published December 2021). The report stated a 5.6 years' worth of supply. This document is considerably out of date and cannot be relied upon.
- 1.4 More recently, in defence of a recent planning appeal, Shaw Lane, Carlton (appeal reference xxx), the Council submitted evidence for the 1<sup>st</sup> April 2024 – 31<sup>st</sup> March 2029 period, confirming only 3.6 years' worth of supply. Whilst the Council have acknowledged that they are no longer able to demonstrate a five-year housing land supply, their latest position is now out of date with the next forward-looking five-year period being 1<sup>st</sup> April 2025 – 31<sup>st</sup> March 2030.
- 1.5 Having regard to available information, this Report sets of the anticipated housing supply within the Barnsley authority for the five-year period 1<sup>st</sup> April 2025 – 31<sup>st</sup> March.
- 1.6 Included at Appendix 1 are anticipated housing trajectory sheets as a result of the research and analysis. This Report should be read alongside that trajectory.
- 1.7 Whilst the Council's last position identified they were unable to provide a five-year housing land supply, it is Johnson Mowat's view that the position continues to worsen. As a result of the research and analysis undertaken it is considered that the Council's housing supply position is closer to 1.65 years.
- 1.8 The consideration of housing delivery is not an exact science. In this instance completion data from the last monitoring year (2024-25) is not available and Johnson Mowat have worked with available information including the Council's Public Access system, latest housing land supply reports, appeal documentation and other desk-based sources to understand the authority's delivery position across the Borough. The data as presented sets out an informed expectation however delays and unforeseen circumstances can often arise which have an impact on delivery. Johnson Mowat reserves the right to revisit and amend this report should new information and data come to light.
- 1.9 This Report addresses the following matters:
  - Section 2 – Housing Requirement – identifies the relevant housing requirement for the Barnsley borough.
  - Section 3 – Housing Supply – sets out general principles in relation to housing supply including understanding what is "deliverable".
  - Section 4 – The Barnsley Assessment – sets out the assessment of the identified supply.
  - Section 5 – The Supply Calculation – bring together the housing requirement and supply to understand the housing land supply position.
  - Section 6 – Summary and Conclusions – sets out the overall summary and conclusions.

## 2. Housing Requirement

- 2.1 In order to understand whether Barnsley has been meeting its housing delivery targets it is important to ascertain what the expectation regarding housing delivery is, i.e. the housing requirement.
- 2.2 The Framework provides a clear steer in relation to the housing requirement. At paragraph 78 it states that deliverable supply, sufficient to provide a minimum of five years' worth of housing, should be against either the housing requirement as set out in adopted strategic policies, or against their local housing need where the strategic policies are more than five years old. The starting point is therefore the Development Plan.

### Barnsley Local Plan

- 2.3 The Development Plan for Barnsley comprises of the following documents:
- Barnsley Local Plan
- 2.4 The Local Plan was formally adopted by Full Council on 3<sup>rd</sup> January 2019. The Local Plan is both a strategic and spatial document setting out how the housing and employment needs and aspirations for the authority and policies and measures to ensure these are delivered. The document has a plan period of 1<sup>st</sup> April 2014 to 2033.
- 2.5 Policy H1 of the Local Plan, *The Number of New Homes to be Built*, identifies that the Authority will seek to "achieve the completion of at least 21,546 net additional homes during the plan period 2014 to 2033. A minimum five-year supply of deliverable sites will be maintained." Paragraph 9.1 of the Local Plan goes on to further confirm that "this figure gives an annualised figure of 1,134 per annum".
- 2.6 The housing requirement set out in the Local Plan is therefore **1,134 dwellings per annum**.
- 2.7 Referring back to paragraph 78 of the Framework, where policies are more than five years old an alternative requirement figure, the Local Housing Need (LHN) figure, should be used. It is therefore important to consider whether the Local Plan figure is up to date.

### Barnsley Local Plan Review

- 2.8 Paragraph 34 of the Framework sets out that "policies in local plans and spatial development strategies should be reviewed to assess whether they need updating at least once every five years, and then should be update as necessary. Reviews should be completed no later than five years from the adoption of the plan...".
- 2.9 Having regard to the Local Plan adoption date of 3<sup>rd</sup> January 2019, a review was to be carried out by January 2024. In line with their obligations, Barnsley Council sought to undertake a review of the Local Plan. The Local Plan review concluded that the Plan remained up to date, that no revisions, updates or amendments were required, in part or whole, to any aspect of the adopted Local Plan. The Review was endorsed by Full Council on 24<sup>th</sup> November 2022.
- 2.10 As such, the Council consider the Local Plan housing requirement sound. A further review is anticipated to be carried out in 2027, or earlier if circumstances require it.
- 2.11 Whilst there may be differing opinions in relation to conduct and effectiveness of the Local Plan Review, it is recognised that the Local Plan housing requirement remains the starting point for assessing housing land supply.

### Basic Requirement

- 2.12 The basic requirement is therefore considered to be 1,134 dwellings per annum, or **5,670 dwellings** in the five-year period.

## Shortfall

- 2.13 Where housing supply is assessed against a strategic housing requirement set out in the Local Plan, as is the case here, it is necessary to address any past shortfalls in housing completions against the requirement. The Planning Practice Guidance (PPG), paragraph 022, reference ID 68-031-20190722, is clear that *"where shortfalls in housing completions have been identified against planned requirements.... Under delivery may need to be considered where the plan being prepared is part way through its proposed plan period, and delivery falls below the housing requirement level set out in the emerging relevant strategic policies for housing."* It goes on to state *"the level of deficit or shortfall will need to be calculated from the base date of the adopted plan and should be added to the plan requirements for the next 5-year period (the Sedgfield approach), then the appropriate buffer should be applied..."*.
- 2.14 The guidance is clear in the methodology that should be undertaken. It is therefore important to understand historic completions and delivery in Barnsley since the start of the plan period, 2014.
- 2.15 The Council has failed to meet its housing targets in every year since the base date of the adopted local plan in 2014. Over the plan period this has led to a shortfall of over 3,600 dwellings to 2023/24.
- 2.16 It is noted that the comprehensive completions data is not yet available for the 2024/25 monitoring year however initial quarterly data<sup>1</sup> for 1<sup>st</sup> April 2024 to 31<sup>st</sup> December identifies:
- 140 completions April to June 2024
  - 160 completions July to September 2024
  - 160 completions October to December 2024

Table 1: Barnsley Housing Completions

Year	Requirement (dpa)	Net Completions <sup>2</sup>	Surplus / Shortfall	Cumulative Plan Period Surplus/ Shortfall
2014/15	1,134	622	-512	-512
2015/16	1,134	706	-428	-940
2016/17	1,134	856	-278	-1,218
2017/18	1,134	1,008	-126	-1,344
2018/19	1,134	988	-146	-1,490
2019/20	1,134	1,051	-83	-1,573
2020/21	1,134	588	-546	-2,119
2021/22	1,134	594	-540	-2,659
2022/23	1,134	685	-449	-3,108
2023/24	1,134	635	-499	-3,607
<b>Total</b>	<b>11,340</b>	<b>7,733</b>	<b>-3,607</b>	<b>-3,607</b>

- 2.17 Should the trend for 2024/25 continue as expected, delivery of around 620 dwellings could be anticipated in the latest 24/25 monitoring year. This delivery rate appears reasonable and would follow recent trends since 2020/21.
- 2.18 The anticipated trajectory of completions would further increase the shortfall of dwellings by 514 dwellings and tip the overall shortfall in the plan period to 4,121 dwellings.
- 2.19 In the interest of a 1<sup>st</sup> April 2025 base date for this assessment, a **shortfall of 4,121 dwellings** is added to the base requirement.

<sup>1</sup> Government Housing Statistics Table 253a: Housing Supply: indicators of new supply; 2024 Q2, Q3 and Q4. <https://www.gov.uk/government/statistical-data-sets/live-tables-on-house-building>

<sup>2</sup> Data taken from Housing Delivery Proof of Evidence of Emma Coveney, Senior Planning Officer in relation to appeal reference 3341097 in relation to Shaw Lane, Carlton.

- 2.20 It is noted that the Council's evidence to the Shaw Lane, Carlton appeal, the most recent five-year housing land supply from the Council, seeks to use the Liverpool method to spread the shortfall across the remainder of the plan period. Such an approach is considered inappropriate and directly contradictory to the PPG, as set out above, and the Government's aims to significantly boost the supply of housing.

## Buffer and Housing Delivery Test

- 2.21 To ensure that there is a realistic prospect of achieving the planned level of housing supply, the local planning authority should always add an appropriate buffer, applied to the requirement in the first five years and including any shortfall. Paragraph 78 of the Framework sets out the various buffers;
- 5% to ensure choice and competition in the market for land; or,
  - 20% where there has been significantly under delivery of housing over the previous three years, to improve the prospect of achieving the planning supply.
- 2.22 It is notes that a third bullet point exist however, the provisions of that bullet point are only relevant following the 1<sup>st</sup> July 2026. As such, it is not applicable at this time.
- 2.23 In order to understand whether there has been significantly under delivery of housing, the Framework at footnote 40 directs us to the Housing Delivery Test (HDT). The measure of significant under delivery is identified as delivery below 85% the housing requirement.
- 2.24 The HDT is published annually by central government. The results are not for dispute and the measures set out by the HDT are effective from the day after it is published until the next iteration (PPG ID 68-042-20241212).
- 2.25 The most recent HDT is the 2023 measurement which was published in December 2024. The HDT results for Barnsley are as follows:

Table 2: Barnsley Housing Delivery Results

Number of homes required			Total number of homes required	Number of homes delivered			Total number of homes delivered	HDT: 2023 Measurement
2020-2021	2021-22	2022-23		2020-21	2021-22	2022-23		
577	864	860	2,301	650	595	681	1,926	84%

- 2.26 The HDT clearly identifies a measure of 84% delivery against the number of homes required. As a consequence, in line with the provisions of paragraph 78 of the Framework, a **20% buffer** must be applied to both the requirement and shortfall.

## Summary on housing requirement

- 2.27 The table below sets out the overall housing requirement against which housing supply should be assessed.

Table 3: Barnsley Housing Requirement as of 1<sup>st</sup> April 2025

Annual Requirement	1,134 dwellings per annum
Five Year Requirement (1,134 x 5)	5,670
Shortfall	4,121
Buffer	20%
<b>Total Five-Year Requirement</b>	<b>11,749</b>

### 3. Housing Supply

- 3.1 Having established the housing requirement, the supply must now be considered.
- 3.2 Again, referencing paragraph 78 of the Framework, it is clear that “a supply of specific deliverable sites sufficient to provide a minimum of five years’ worth of housing” is required. The Framework brings into effect a number of significant considerations for five-year housing land supply including a definition of what could be reasonably considered deliverable.

#### Definition of deliverable

- 3.3 The Framework now provides further detail in relation to one of the most disputed aspects of the supply side consideration: what constitutes “deliverable” supply. Annex 2: Glossary the Framework included a definition of deliverable. There is now no presumption of deliverability.
- 3.4 The definition of a ‘deliverable’ site is set out as follows: -
- “Deliverable: To be considered deliverable, sites for housing should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years. In particular:*
- a) sites which do not involve major development and have planning permission, and all sites with detailed planning permission, should be considered deliverable until permission expires, unless there is clear evidence that homes will not be delivered within five years (for example because they are no longer viable, there is no longer a demand for the type of units or sites have long term phasing plans).*
- b) where a site has outline planning permission for major development, has been allocated in a development plan, has a grant of permission in principle, or is identified on a brownfield register, it should only be considered deliverable where there is clear evidence that housing completions will begin on site within five years.”*
- 3.5 The first sentence of the Framework Glossary definition sets out an 'overarching' test for the approach to establishing whether a site can be "considered deliverable". This is: -
- “Sites for housing should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years.”*
- 3.6 The language makes clear timing points about availability and suitability have to be judged “now” and achievability is judged through delivery being realistic within the next 5 years. The definition then goes on to provide further prescription for specific categories of sites; setting out how they would satisfy the above realistic prospect test. In essence, satisfaction of the more detailed test for the site category provides the basis for concluding whether there is a realistic prospect.
- 3.7 The first specific (Category A) deals with: -
- “ sites which do not involve major development and have planning permission, and all sites with detailed planning permission ”.*
- 3.8 The test here is that both of these: -
- “should be considered deliverable until permission expires, unless there is clear evidence that homes will not be delivered within five years (for example because they are no longer viable, there is no longer a demand for the type of units or sites have long term phasing plans)”.*
- 3.9 The above test applies a presumption that a site within this category is deliverable "until" permission expires "unless" there is clear evidence of non-delivery.
- 3.10 For sites in this category that are considered deliverable there is still a need to make a judgement based on the available evidence as to how many units will be likely to deliver in the 5-year period. This will involve a judgement about the start date and the rate of completions after that in the 5-year

period. From the language of the Framework there is no burden or threshold of proof on these matters.

- 3.11 The second specific (Category B) is: -  
*"[if a] site has outline planning permission for major development, has been allocated in a development plan, has a grant of permission in principle, or is identified on a brownfield register".*
- 3.12 The relevant test here is that these sites  
*"should only be considered deliverable where there is clear evidence that housing completions will begin on site within five years" (underling my emphasis).*
- 3.13 The above test applies a presumption that a site within category B is not deliverable "unless" there is "clear evidence that housing completions will begin" on site within five years. To rebut the presumption, the burden is to positively demonstrate clear evidence of delivery. Recent appeal decisions have rightly placed this onus of proof at the feet of the LPA. Again, for sites in this category that are considered deliverable there is still a need to make a judgement based on the available evidence as to how many units will be likely to deliver in the 5-year period. This will involve a judgement about the start date and the rate of completions after that in the 5-year period. From the language of Framework there is no burden or threshold of proof on these matters.
- 3.14 The Framework definition places sites allocated in the development plan on the same footing as sites with outline planning permission, in terms of the need for clear evidence of likely completions.
- 3.15 Having regard to what might constitute evidence, to demonstrate deliverability, the PPG adds further detail. The PPG (paragraph ID: 68-007-20190722) states that evidence may include the following:
- current planning status – for example, on larger scale sites with outline or hybrid permission how much progress has been made towards approving reserved matters, or whether these link to a planning performance agreement that sets out the timescale for approval of reserved matters applications and discharge of conditions;
  - firm progress being made towards the submission of an application – for example, a written agreement between the local planning authority and the site developer(s) which confirms the developers' delivery intentions and anticipated start and build-out rates;
  - firm progress with site assessment work; or
  - clear relevant information about site viability, ownership constraints or infrastructure provision, such as successful participation in bids for large-scale infrastructure funding or other similar projects.
- 3.16 It should be noted that progress towards a planning application does not itself imply that houses will be delivered within five-years. The clear evidence required is to how and when a site start will be made and how dwellings will be completed.
- 3.17 The Framework Glossary definition does not make express reference to the category of sites, where no planning permission is in existence/they are unallocated etc. It seems reasonable however to conclude that in the absence of these attributes (outline permission/allocation etc.) it is even less likely that there will be clear evidence that housing completions will begin. Effectively, the first category is a more advanced/complete stage of planning permission than the second category. Therefore, sites with no planning permission/unallocated etc. are at an even less advanced/complete stage.
- 3.18 The Council will now need to demonstrate progress is being made on allocations and outline planning application sites set out within the supply that amounts to clear evidence that homes will begin within five years. For some sites, such evidence may be available, however at present the level of information put forward by the Council in either their Housing Land Supply Report or the evidence

presented at the Shaw Lane, Carlton appeal is limited. There is, for example, no site-specific commentary attributed to identified sites.

- 3.19 The assessment undertaken by Johnson Mowat has had full regard to the Framework and PPG in relation to what may constitute deliverable.

## 4. The Barnsley Assessment

- 4.1 The Council's evidence to the Shaw Lane, Carlton appeal provides the most recent understanding of the authority's housing land supply position. Whilst this addressed the five-year period of 2024-2029 and is therefore now out of date it remains a good starting point for this assessment. The Council have presented the supply in trajectory format across the whole of the plan period.
- 4.2 The Council's trajectory has been used as the starting point for this assessment, a copy is provided at Appendix 2. At Appendix 1 the Johnson Mowat supply sheets are provide site specific commentary on each of the Council's identified sites.
- 4.3 The sites identified by the Council fall predominantly into the following categories:
- Local Plan Allocations
  - Non-Allocated Planning Permissions (>10 dwellings)
  - Sites with Planning Permission (<10 dwellings)
  - Windfall sites
  - Losses
- 4.4 In the interest of continuity, the same sub headings have been used and the commentary below draws on particular themes and sites of interest.

### Local Plan Allocations

#### Completed Sites

- 4.5 The Local Plan identifies a raft of housing and mixed-use allocations which were anticipated to contribute to housing delivery across the plan period. Having regard to the Council trajectory it is clear that some allocations have already been brought forward prior to 2025 and will have contributed to the housing delivery since the start of the plan period in 2014.
- 4.6 Those sites which are considered to have been completed and will contribute no further housing delivery from 2025 onwards remain in the trajectory for completeness at Appendix 1 however are stated as completed within the commentary and marked with a "C" in the Category column. There are a total of 43 completed developments within the Local Plan Allocations.
- 4.7 The remaining Local Plan allocations that are considered to contribute delivery by the Council include a mix of sites which benefit from planning consent and those which do not yet. In a number of cases the allocations have been brought forward in a more piecemeal fashion and may be subject to a number of applications or include a residual area of the allocation which may still come forward. The supply sheets as Appendix 1 have tried to identify the separate components where possible.

#### Category A Sites

- 4.8 Of the remaining Local Plan allocations, Johnson Mowat identifies 25 developments which could be considered to be Category A sites as set out in the Framework. These sites all benefit from detailed planning consent. These sites are generally associated with a housebuilder or delivery partner and are either already under construction or the necessary evidence by way of discharge of conditions etc is available to confirm that construction will take place in the next five years.
- 4.9 Where sites are currently under construction, in the absence of formal completion data for the 2024/25 monitoring year, an assumption of how many completions will have been made is undertaken. This allows an assumption to be made in relation to how many dwellings are left to come forward from 2025 onwards.
- 4.10 Should completion data become available, Johnson Mowat reserved the right to revise the position as set out in this Report and appendices.

## Category B Sites

- 4.11 The majority of the Local Plan sites fall under Category B of the Framework. These sites are allocated in the Local Plan however as of the 1<sup>st</sup> April 2025 base date do not benefit from full planning consent.
- 4.12 Having regard to the Council's trajectory (as at 1 April 2024) provided at Appendix 2 of this Report, the Local Authority themselves acknowledge that not all remaining allocations will deliver in the five-year period 2025 – 2030 and some are anticipated to deliver in the final years of the plan period after 2030. However, in the interest of robustness and to ensure all sites are fairly assessed for the 1<sup>st</sup> April 2025 base date, these sites has remained in the Johnson Mowat supply assessment as provided at Appendix 1.
- 4.13 Where planning applications has been identified as pending consideration on an allocation, whilst these remain category B sites, consideration has been had in relation to the status of the application, i.e. whether it remains recent and active, whether there is a housebuilder or delivery partner associated with the application and any other relevant information. There are a number of allocations where outline planning has been consented or applications are currently pending consideration with the Council and it has been considered reasonable to account for delivery of dwellings towards the end of the plan period. Such examples include:
- HS1 – Former Woolley Colliery
  - HS6 – South of Coniston Avenue, Darton
  - HS10 – North of Keresforth Road
  - HS47 – North of Bamburgh Lane
  - HS52 – Land to the west of Thurnscoe Bridge Lane, South of Derry Grove, Thurnscoe
  - HS70 – Land north of Barnsley Road/ Land East of Penistone Grammar School
  - HS78 – Land south of Doncaster Road
  - HS90 – High Street
  - MU1 – South od Barugh Green Road
  - MU3 – Shaw Lane, Carlton
- 4.14 Some allowance of delivery has already by acknowledged in relation HS32 where Johnson Mowat is aware that preparation of a planning application is currently taking place with the intention to submit before the end of 2025. It is considered that, despite no formal planning consent, the evidence of progression towards delivery in the five-year period is demonstrated.
- 4.15 Notwithstanding the above, there remains a significant number of allocations where there is no planning status associated with the site. In these circumstances it is considered that there is no clear evidence to justify delivery and no allowance has been made in the five-year period.
- 4.16 It is noted that the information provided by the Council makes no attempt to provide site specific commentary or justify the expectation of delivery on dwellings on these sites. The Framework is clear that allocations and sites with outline consent, *category B sites*, should *only* be considered where there is clear evidence of delivery. With no evidence of delivery found in the public domain, and no evidence put forward by the Council, the starting point for these sites must be that they are undeliverable.

## Summary on Local Plan Sites

- 4.17 In total it is considered that 2,873 dwellings could be contributed from Local Plan Allocations in the five-year period.

## Non-Allocated Planning Permissions (>10 dwellings)

- 4.18 A list of large-scale planning permissions, developments greater than 10 units, is provided by the Council as part of the Shaw Lane, Carlton appeal. Only 14 sites within the trajectory are expected to

contribute to delivery from 2025 onwards. Acknowledging that the list is base dated 1<sup>st</sup> April 2024, it is necessary to bring this in line with a base date of 1<sup>st</sup> April 2025.

- 4.19 As such, a search for planning permissions granted between 1<sup>st</sup> April 2024 and 31<sup>st</sup> March 2025 has been undertaken on the Council's Public Access system. The majority of planning consents related to small scale windfall sites. Whilst a number of large-scale planning applications were granted planning consent in the 2024/25 monitoring year, all but 1 were associated with Local Plan allocations.
- 4.20 Applications were granted in relation to HS2, HS3, HS5, HS8, Hs15 and Hs17. Therefore, for the purposes of this Assessment, the delivery of dwellings from these applications have been considered in association with the allocation.
- 4.21 The one large application granted planning approval in the 24/25 monitoring year, not associated with an allocation was application reference 2022/0435, an outline application for 12 dwellings on land off Church Street, Bolton Upon Dearne.
- 4.22 All identified large scale sites stated as benefitting from planning consent have been reviewed and site-specific commentary provided at Appendix 1. A number of sites have been discounted due to lack of evidence of delivery, lack of progress on the ground and potential expiration of planning consent.
- 4.23 In total, only 101 dwellings are expected to contribute to the supply from this source.

### Sites with Planning Permissions (<10 dwellings)

- 4.24 It is necessary to have regard to the sites with planning permission of less than 10 dwellings. These are committed developments and as per the Framework considered deliverable, under Category A.
- 4.25 The Council's evidence presents no specific list of committed development sites under the 10-unit threshold.
- 4.26 For the 1<sup>st</sup> April 2024 base date, the Council assumes a 62 dwellings per annum completion rate from small sites, this would equate to 310 dwellings in the five-year period. The specific data that sits behind this is not presented. However, the figure is not disputed and is considered to be reasonable.
- 4.27 In bringing this assessment up to date to 1<sup>st</sup> April 2025, the public access search of permissions granted in the 2024/25 monitoring year identifies a total of 163 gross dwellings. The gross figure is considered the appropriate starting point as a separate figure for predicted losses is included in the supply, as set out below. Whilst these sites have been granted planning permission in the 2024/25 monitoring year it is considered that they will be incrementally delivered over the five-year period alongside extant sites already benefitting from planning consent.
- 4.28 As is set out in the Council's evidence, it is not practical to assess deliverability of all the planning permissions for small sites. It is therefore assumed that the sites will be brought forward however a lapse rate is applied to account for the non-implementation of planning permissions.
- 4.29 Having regard to the Council's evidence set out in the Shaw Lane, Carlton appeal, it is understood that an "*an evidentially derived discount (60% build out rate) for non-delivery is applied to small sites (under 10 dwellings)*". Such a lapse rate is not disputed.
- 4.30 The assumption of 62 dwellings per annum is considered reasonable and is in line with the most recent understanding in relation to the quantum of small sites granted planning permission. The total assumed delivery from small sites is 310 dwellings in the five-year period is 310 dwellings.

### Windfall sites

- 4.31 In addition to the committed development sites (sites with planning permission) it is expected that during the course of the five-year period a number of "unknown" or windfall sites will be brought

forward. The Framework, at paragraph 75, allows the provision of windfall within the anticipated supply. It states that:

*"Where an allowance is to be made for windfall sites as part of anticipated supply, there should be compelling evidence that they will provide a reliable source of supply. Any allowance should be realistic having regard to the strategic housing land availability assessment, historic windfall delivery rates and expected future trends. Plans should consider the case for setting out policies to resist inappropriate development of residential gardens, for example where development would cause harm to the local area."*

- 4.32 Having regard to the Council's Shaw Lane, Carlton evidence, the Council has had full regard to historic windfall rates from both full and detailed reserved matters consents and outline planning consents. As a result of the evidence a windfall allowance of 631 dwellings is identified for the five-year period, 2024 -2029. Whilst this is specifically derived from data from the preceding five years 2019/20 – 2023/24, recent trends indicate that the trajectory is likely to continue.
- 4.33 The completions data for the 2024/25 monitoring year is not yet available to bring this analysis up to date. Johnson Mowat would be happy to review the position should the data be made publicly available.
- 4.34 A windfall allowance of 631 dwellings has been included within the supply.

## Losses

- 4.35 It is appropriate to ensure that the loss of any dwelling stock is accounted for within the supply. This allows the supply figure to be considered as a net rather than gross supply. Again, the Council have considered historic data in relation to losses to ensure that the figure is based on evidence. In the five-year period 2019/20 to 2023/24 a total of 44 losses were recorded. This equates to an average of 9 dwellings per annum (rounded to the nearest whole number).
- 4.36 Again, given that completion/ demolition data for the 2024/25 monitoring year is not available, 9 dpa remains an appropriate starting point. This equates to a total of 45 losses in the five-year period to be deducted from the supply.

## Summary of the 2025-2030 Housing Land Supply Position

- 4.37 Based on the analysis set out above, and the detailed provided in the supply tables at Appendix 1, Johnson Mowat consider the 2025- 2030 to comprise of circa 3,870 dwellings. Full supply calculations are provided in Section 5 of this Report.

## 5. The Supply Calculation

- 5.1 The Table below sets out the Barnsley Five Year Housing Land Supply Position 1<sup>st</sup> April 2025 to 31<sup>st</sup> March 2030 as assessed by Johnson Mowat.

Table 4: The Barnsley Position 2025 – 2030

<b>Requirement Calculation</b>	
Annual Requirement	1,134 dwellings per annum
Five Year Requirement (1,134 x 5)	5,670
Shortfall	4,121
Buffer	20%
<b>Total Five-Year Requirement</b>	<b>11,749</b>
<b>Barnsley Identified Supply</b>	
Local Plan Allocations	2,873
Non-Allocated Permissions (>10 dwellings)	101
Sites with Planning Permission (<10 dwellings)	310
Windfall Allowance	631
Predicted Losses	-45
<b>Total Deliverable Supply</b>	<b>3,870</b>
<b>Housing Land Supply</b>	<b>1.65 years</b>

- 5.2 Whilst the Council have stated that for the 2024 – 2029 position they cannot demonstrate a five-year housing land supply, it is the view of Johnson Mowat that position is likely to have been overly optimistic and position from 1<sup>st</sup> April 2025 to 31<sup>st</sup> March 2030 is considerably worse.
- 5.3 Having regard to information available at the time of writing, full appreciation for the Framework and PPG's understanding of what constitutes deliverable and taking a pragmatic approach, it is considered that the Council's housing land supply position is likely in the region of 1.65 years' worth of supply.
- 5.4 The shortfall in housing for the five-year period, equating to 7,879 dwellings, is significant within the Barnsley authority.

## 6. Summary and Conclusion

6.1 This Report has sought to understand the housing delivery in Barnsley and identify whether housing supply is likely to meet the requisite five-year housing need. The five-year period assessed has been 2025 -2030.

6.2 The section below summarises the key finding:

- The housing requirement for Barnsley is set out in the Barnsley Local Plan. The Local Plan is both a strategic and spatial document setting out how much and where development should be focused.
- Policy H1 of the Local Plan identifies a need for 21,546 net additional homes during the plan period 2014 to 2033. This equates to 1,134 dpa.
- Whilst the Local Plan was adopted in January 2019, a review was undertaken in 2022 confirming that the plan remained consistent with national planning policy, fit for purpose and no revisions were necessary.
- The housing requirement in the Local Plan therefore remains the starting point for housing delivery.
- Having regard to historic delivery since the start of the plan period, 2014 to 2024 the Council have continuously under delivered against the housing requirement. Having regard to the expected completions for the 2024/25 monitoring it is estimated that a total shortfall of 4,121 dwelling has accrued since the start of the plan period. As per the provisions of the Planning Practice Guidance, the Council should make good this shortfall in the five-year period.
- The Housing Delivery Test: 2023 measurement identifies just 84% housing delivery against the identified housing need in the last three years. As a consequence, a 20% buffer should be applied to both the housing requirement and the shortfall.
- The total identified supply for the 2025-2030 five-year period is 11,749 dwellings.
- The Council's housing supply predominantly relies upon the delivery of Local Plan Allocations. That said, there are a number of allocations which have already been completed and will not contribute to the forward supply and a very large number of allocations where there is no current planning activity and there is no clear evidence of delivery on site. It is clear from the timescales associated with some of the applications on the allocated sites and the instances where applications have been previously withdrawn or refused, that the delivery of allocations in the Borough has not been easy.
- Outside of the allocations, some delivery is expected from sites already benefitting from planning consent. This is limited from large development sites (over 10 units) where recent permissions on larger development sites are mainly associated with the allocations. An appropriate lapse rate is attributed to planning permissions on small sites to account for non-implementation.
- Having regard to sites which have not yet been identified in the supply, an appropriate windfall allowance is included, based upon past windfall delivery.
- Across the five-year period of 1<sup>st</sup> April 2025 – 31<sup>st</sup> March 2030 an anticipated supply of 3,870 dwellings is identified. This represents a shortfall of 7,879 dwellings.
- This assessment identifies that Barnsley are currently only able to demonstrate a 1.65 years' worth of housing land supply.
- This is significantly lower than the circa 3.6 years most recently identified by the Council.

Appendix 1. Johnson Mowat's Barnsley Supply Assessment  
Sheets 2025 - 2030

<b>Johnson Mowat Summary - Barnsley Five Year Housing Land Supply 1st April 2025 - 31st March 2030</b>	
<b>Requirement Calculation</b>

JM ASSESSMENT OF BARNSELY FIVE YEAR HOUSING LAND SUPPLY 2025 - 2030

Local Plan Allocations (including those with planning permission)

Local Plan Reference	Site address	Allocation/Type of Planning Permission	Planning Application Number	Planning Permission Decision Date	SHELAA Reference	Settlement	Gross Site Area (ha)	Net site area (following all reductions)	Indicative yield	Number in Plan Period	25/26	26/27	27/28	28/29	29/30	30/31	31/32	32/33	Johnson Mowat SYHLS 23-28	Comments	Category
HS1	Former Woolley Colliery	Allocation	2024/0867	undetermined	667/688	Urban Barnsley	4.1	2.24	114	114	0	0	0	35	45	34	0	0	80	Housing allocation HS1 indicative capacity 90 dwellings. Full planning application submitted on behalf of Gleeson for 114 dwellings on site. Application validated 19th December 2024. Still pending consideration with the Council. Given housebuilder interest and recent application is considered that the site could come forward in the five year period. Delivery is assumed from 2028 onwards to account for the timescales associated with gaining planning consent and implementing the scheme.	B
HS2	Land south of Darton Lane, Staincross	Reserved Matters Planning Consent	2019/1244, 2023/0566	28/06/2024	197/843	Urban Barnsley	4.4	2.16	46	46	0	23	23	0	0	0	0	0	46	Reserved Matters approval granted on 28th June 2024 for Duchy Homes for 46 no. dwellings. Discharge of conditions and start on site currently underway. Johnson Mowat agent to application. Allocation indicative capacity at 86 units. Whilst a small area of the allocation sits outside of the application red line boundary, the residual area is not anticipated to deliver 20 units. There is no application to bring the residual allocation area forward so no allowance made for this.	A
HS3	Former William Freeman site, Wakefield Road	Reserved Matters Planning Consent	2017/1718, 2021/1405	08/10/2024	202	Urban Barnsley	3.5	2.56	91	91	0	0	46	45	0	0	0	0	91	Reserved Matters approval for 91 dwellings granted on 8th October 2024 on behalf of Netherthorn Homes. NB. Outline application granted approval for 102 units and so delivery from site in line with expectation is generally down. Council's trajectory included 102 to reflect Outline consent, delivery adjusted accordingly.	A
HS4	Longcar PDC	Reserved Matters Planning Consent	2017/0251	30/06/2017		Urban Barnsley	0.9	0	32	32	0	0	0	0	0	0	0	0	0	Development completed. No dispute with Council's trajectory.	C
HS5	Land south of West Street, Worsborough	Allocation	2023/1104	17/01/2025	359	Urban Barnsley	1.5	1.2	51	51	0	21	30	0	0	0	0	0	51	Full application for 51 dwellings approved on behalf of Hooper Homes on 17th January 2025. Scheme could reasonably deliver in five year period.	A
HS6	Site south of Coniston Avenue, Darton	Allocation	2024/0698	undetermined		Urban Barnsley	1.26	1.008	39	39	0	0	0	10	29	0	0	0	39	Previously a Full Planning Application, 2021/1661, for 48 dwellings was submitted on 13th December 2021 on behalf of Barratt Homes. Application withdrawn. Full application for 39 dwellings (validated 4th September 2024) now pending on behalf of Ben Bailey Homes. Anticipated to be at planning committee in June 2025. Johnson Mowat planning agent. Delivery expected in the five year period.	B
HS7	Site east of Burton Road, Monk Bretton	Allocation			250	Urban Barnsley	9.1	5.46	218	218	0	0	0	0	0	0	0	0	0	Local Plan allocation for 218 dwellings. No recent planning applications associated with site. No evidence of delivery. Site should not to be included in trajectory.	B
HS8	Site west of Wakefield Road, Staincross	Allocation			251/904	Urban Barnsley	13.8	3.38	135	135	0	0	0	0	0	0	0	0	0	The capacity of HS8 is stated as 135 dwellings in the Local Plan, a residual capacity of the allocation taking into account the 250 dwellings granted planning consent under 2016/0337 and 2017/0520. With a further 45 dwellings permitted on the allocated site (site below) the residual would equate to 90 units. However, the three permissions as listed below cover the allocation in its entirety and there would therefore be no further opportunity for additional units. There is no longer a "residual" capacity from this allocation.	B
		Full Planning Consent	2022/0995	15/08/2024		Urban Barnsley			45	45	0	0	15	30	0	0	0	0	45	Full planning consent for 45 dwellings was granted on 15th August 2024 on behalf of RMH Properties Ltd. The application forms part of the wider HS8 allocation. Various applications to discharge conditions have been submitted. There is clear intent to deliver application. Delivery in the five year period is not disputed.	A
		Reserved Matters Planning Consent	2016/0337	24/07/2018		Urban Barnsley			46	46	0	0	0	0	0	0	0	0	0	Reserved Matters for 46 dwellings permitted on 24th July 2018. Various applications to discharge conditions have been made however there has been no evidence that development has commenced on site or that delivery would occur from this site. The Outline requires development to have commenced within two years of the expiration of last approved RM. It is considered that this permission has lapsed.	B

		Reserved Matters Planning Consent	2017/0520	24/07/2018	Material start made - mineral rights	Urban Barnsley			193	193	0	0	0	0	0	0	0	0	0	Reserved Matters for 195 dwellings approved. Condition discharged in July 2021. Understood that Gleeson want to sell, no developer in place. Development not commenced through to delivery although a material start on site recorded. Whilst permission may be extant no progress on since 2021 and uncertainty regarding associated developer means there is no evidence to suggest delivery in the five year period.	A	
HS9	Site east of Smithy Wood Lane	Allocation	2021/1642	05/12/2024	256	Urban Barnsley	4.5	3.6	179	179	0	40	45	45	49	0	0	0	179	Full Planning granted on 5th December 2024 on behalf of Avant Homes for 179 dwellings. Covers HS9 and HS15. Johnson Mowat provided Planning Statement. Dwellings now being marketed as Smithy Wood Gate. Delivery expected in five year period.	A	
HS10	Site north of Keresforth Road	Allocation	2022/0016	undetermined	257/489/912	Urban Barnsley	12.1	6.16	175	175	0	0	0	25	45	45	45	15	70	Outline application submitted for 215 dwellings on 6th January 2022 by Keepmoat Homes. Application remains pending consideration. Subject to planning approval delivery could take place towards end of the five years.	B	
HS11	Site south of Bloomhouse Lane, Darton	Allocation	2017/0990	undetermined	266	Urban Barnsley	8.7	6.72	214	214	0	0	0	0	0	0	0	0	0	Full application for 214 dwellings has been under consideration since August 2017 on behalf of Jones Homes. Application remains pending consideration. Barratt Homes understood to control the site now however no new application has been submitted and the 2017 application has not changed to reflect any interest from Barratt. Given the application has been in the system for almost 8 years with no immediate progress, there is not sufficient evidence to include in the five year supply.	B	
HS12	Site north of Carlton Road	Allocation			283	Urban Barnsley	2.7	2.16	86	86	0	0	0	0	0	0	0	0	0	No planning application submitted in relation to the site. Previous applications include 2019/0230 on part of site for residential development of 14 units which was refused. A temporary permission was granted on 6th April 2023 for an agricultural storage building for a period of three years (2022/0869). The site is clearly being explored for alternative uses and there is no evidence of residential delivery in the five year period.	B	
HS13	Former Priory School site/Land off Rotherham Road, Cundy Cross	Allocation			294/419	Urban Barnsley	10.3	1.28	51	51	0	0	0	0	0	0	0	0	0	The capacity of HS13 is stated as 51 dwellings in the Local Plan, a residual capacity of the allocation taking into account the 192 dwellings granted planning consent under 2016/0127. However, no planning has advanced on this land and there is no evidence of delivery in the five year period.	B	
		Full Planning Consent	2016/0127	26/04/2016		Urban Barnsley			192	192	0	0	0	0	0	0	0	0	0	0	Full application for 192 dwellings is now complete. Harron Homes development site.	C
HS14	Land at Garden House Farm	Full Planning Consent	2022/0663	19/04/2023	295	Urban Barnsley	2.2	1.76	72	72	0	0	27	45	0	0	0	0	72	Reserved Matters granted 19th April 2023 for 72 no dwellings. Relevant conditions discharged and demolition of former care home has taken place. Delivery in five year period is not disputed.	A	
HS15	Site to the west of Smithy Wood Lane	Allocation	2021/1642	05/12/2024	297	Urban Barnsley	1.1	0	36	36	0	0	0	0	0	0	0	0	0	Full Planning granted on 5th December 2024 on behalf of Avant Homes for 179 dwellings. Covers HS9 and HS15. Johnson Mowat provided Planning Statement. All unit numbers considered under allocation HS9.	A	
HS16	Site to the east of St Helens Avenue	Full Planning Consent	2019/0902	29/09/2020	299/412	Urban Barnsley	3	2.4	93	93	0	0	0	0	0	0	0	0	0	Planning permission granted for 93 dwellings to Keepmoat Homes. Development is expected to have completed prior to April 2025.	C	
HS17	Site west of Wakefield Road	Full Planning Consent	2017/1451, 2021/0654, 2022/0633	25/06/2019, 31/10/2024	267/320	Urban Barnsley	7.7	6.16	232	232	0	0	7	45	45	45	45	34	97	Outline planning consent for 232 dwellings approved 25th June 2019. Reserved Matters 2022/0633 for 221 dwellings submitted in June 2022 and approved 31st October 2024. Development on behalf of Gleeson. Delivery of first houses expected in five year period.	A	
HS18	Site of former Kingstone School	Full Planning Consent	2014/0429	17/07/2014	357	Urban Barnsley	6.9		163	163	0	0	0	0	0	0	0	0	0	Full planning permission granted and development completed.	C	
HS19	Site north of Wilthorpe Road	Full Planning Consent	2014/0474	07/01/2015	383	Urban Barnsley	13.1		326	326	0	0	0	0	0	0	0	0	0	Development completed. No dispute with the Councils trajectory.	C	
HS20	Land off High Street, Dodworth	Full Planning Consent	2015/0246	30/06/2015	384	Urban Barnsley	0.5		1	1	0	0	0	0	0	0	0	0	0	Development completed. No dispute with the Councils trajectory.	C	
		Full Planning Consent	2015/0248	30/06/2015	384	Urban Barnsley			1	1	0	0	0	0	0	0	0	0	0	Development completed. No dispute with the Councils trajectory.	C	
		Full Planning Consent	2015/0251	30/06/2015	384	Urban Barnsley			1	1	0	0	0	0	0	0	0	0	0	Development completed. No dispute with the Councils trajectory.	C	
		Full Planning Consent	2015/0970	14/10/2015	384	Urban Barnsley			1	1	0	0	0	0	0	0	0	0	0	Development completed. No dispute with the Councils trajectory.	C	
		Full Planning Consent	2016/0904	03/07/2017	384	Urban Barnsley			1	1	0	0	0	0	0	0	0	0	0	0	Development completed. No dispute with the Councils trajectory.	C
		Full Planning Consent	2017/1112	31/10/2017	384	Urban Barnsley			1	1	0	0	0	0	0	0	0	0	0	0	Development completed. No dispute with the Councils trajectory.	C
HS21	Monk Bretton Reservoir and land to the east of Cross Street	Allocation			389	Urban Barnsley	6.65	2.04	71	71	0	0	0	0	0	0	0	0	0	The capacity of HS21 is stated as 79 dwellings in the Local Plan, a residual capacity of the allocation taking into account the 95 dwellings granted planning consent under 2015/0646. Remaining capacity expected to be circa 71 dwellings. No live planning applications associated with remainder of allocation. No evidence of delivery.	B	
		Full Planning Consent	2015/0646	29/01/2016	389	Urban Barnsley			95	95	0	0	0	0	0	0	0	0	0	0	Development completed. No dispute with the Councils trajectory.	C

		Reserved Matters Planning Consent	2020/0113	19/03/2021	389	Urban Barnsley			8	8	0	0	0	0	0	0	0	0	0	Development completed. No dispute with the Councils trajectory.	C
HS22	Land at St Michaels Avenue	Full Planning Consent	2019/1546	03/12/2020	413	Urban Barnsley	1.2	0.96	35	35	0	0	0	0	0	0	0	0	0	Development completed. No dispute with the Councils trajectory. Completions expected prior to April 2025. BMBC Housing scheme.	C
HS23	Land off Highstone Lane, Worsborough Common	Allocation			422	Urban Barnsley	0.5	0.45	18	18	0	0	0	0	0	0	0	0	0	Allocation HS23 capacity of 18 dwellings. No planning application submitted. No evidence of delivery.	B
HS24	Land between Mount Vernon Road and Upper Sheffield Road	Full Planning Consent	2021/0142	15/09/2021	620	Urban Barnsley	11.8	1.04	42	42	0	0	0	0	0	0	0	0	0	Development completed. No dispute with the Councils trajectory. Development by Duchy Homes.	C
HS25	Land to the east of Woolley Colliery Road	Allocation			207	Urban Barnsley	3.7	2.96	118	118	0	0	0	0	0	0	0	0	0	Allocation HS25 capacity of 118 dwellings. No application submitted in relation to site. No evidence of delivery in five year period.	B
HS26	Land adjacent Zenith Business Park extension	Allocation			669	Urban Barnsley	5.7	4.56	143	143	0	0	0	0	0	0	0	0	0	Allocation HS26 capacity of 143. No planning applications submitted. No evidence of delivery in five year period.	B
HS27	Land at Bleachcroft Way, Staircroft	Allocation	2017/0753, 2021/0668	14/04/2023	854	Urban Barnsley	9.4	7.3	230	230	45	45	45	22	0	0	0	0	157	Outline planning consent granted 8th April 2021 for 250 units (application reference 2017/053). Reserved Matters granted on behalf of Harron Homes for 238 dwellings in March 2023. Various applications to discharge conditions approved. Forecast appears to be realistic. Harron Homes are developer. Development has commenced and properties are currently being marketed as Nevison's Fold.	A
HS28	Land south west of Priory Road	Allocation			290	Urban Barnsley	0.5	0.45	18	18	0	0	0	0	0	0	0	0	0	Allocation HS28 capacity of 18 dwellings. No planning application submitted. No evidence of delivery.	B
HS29	Land off Mount Vernon Road	Full Planning Consent	2019/0577	08/04/2021	460	Urban Barnsley	2.7	1.84	70	70	2	0	0	0	0	0	0	0	2	Development by Orion Homes considered to be at an advanced stage with majority of completions delivered prior to 2025.	A
HS30	Land off Leighton Close	Allocation			503	Urban Barnsley	0.5	0.45	18	18	0	0	0	0	0	0	0	0	0	Allocation HS30 capacity of 18 dwellings. No planning application submitted. No evidence of delivery.	B
HS31	Land off High Street, Shafton	Allocation	2021/0336	27/01/2023	447	Cudworth	1.3		43	43	30	10	0	0	0	0	0	0	40	Application 2021/0336 submitted for 40 dwellings approved 27th January 2023. Development has commenced on site and delivery expected in five year period. Scheme brought forward with Homes England funding.	A
HS32	Land off Pontefract Road	Allocation			241/820	Cudworth	6.1	4.8	147	147	0	0	0	0	40	40	40	27	40	Allocation HS32 capacity of 147 dwellings. Historic application from 2005 - B/05/0773/CU - Outline application withdrawn in 2005. No new applications submitted since. However, Johnson Mowat (through role as agent) are aware that a regional developer is currently preparing application documentation with the intention of making a submission for full planning prior to the end of the year. Initial technical reporting has been carried out. Having regard to this activity, subject to planning consent, the allocation could see delivery of housing towards the end of the five year period.	B
HS33	Site to the west of Brierley Road, Grimethorpe	Allocation			240	Cudworth	1.9	1.52	61	61	0	0	0	0	0	0	0	0	0	Allocation HS33 capacity of 61 dwellings. No recent planning applications submitted. No evidence of delivery.	B
HS34	Site at Blacker Lane	Allocation			278	Cudworth	7.4	4.21	169	169	0	0	0	0	0	0	0	0	0	Allocation HS34 capacity of 169 dwellings. No planning application submitted. Previous historic applications refused. No evidence of delivery.	B
HS35	Site adjacent Carrs Lane/Summerdale Road, Cudworth	Full Planning Consent	2018/1275	06/03/2019	298	Cudworth	11		282	282	0	0	0	0	0	0	0	0	0	Development by Barratt David Wilson Homes for 282 dwellings completed.	C
HS36	Site at Weetshaw Lane, Shafton	Allocation			312	Cudworth	4.5	3.6	144	144	0	0	0	0	0	0	0	0	0	Allocation HS36 capacity of 144 dwellings. Only historic planning applications. No recent planning application. No evidence of delivery.	B
HS37	Land north of Sidcop Road	Allocation			398	Cudworth	0.5	0.45	18	18	0	0	0	0	0	0	0	0	0	Allocation HS37 capacity 18 dwellings. No planning applications associated with the site. No evidence of delivery. Site expected to come forward as comprehensive masterplan with HS38 and HS40.	B
