The approval is subject on compliance with the following conditions:

- 1 The development hereby permitted shall be begun before the expiration of 3 years from the date of this permission.
Reason: In order to comply with the provision of Section 91 of the Town and Country Planning Act 1990.
- 2 The development hereby approved shall be carried out strictly in accordance with the amended plans (Amended Plans and Elevations received 28/03/2024) and specifications as approved unless required by any other conditions in this permission.

Informative(s)

Pursuant to article 35 (2) of the Town and Country Planning (Development Management Procedure) Order 2015 (as amended), the Local Planning Authority have, where possible, made a pre-application advice service available, and otherwise actively engaged with the applicant in dealing with the application in a positive and proactive manner.

- 1 The granting of planning permission does not in any way infer that consent of the landowner is given. Therefore, the consent of all relevant landowners is required before proceeding with any development, including that of the Council as landowner.

If it should transpire that the applicant does not own any of the land included in this consent, then it is the responsibility of the applicant to seek all necessary consents and approvals of the landowner.

- 2 The development hereby approved includes the carrying out of alterations to a vehicular access. You are advised that before undertaking work on the adopted highway you will require a Section 184 licence from the Highway Authority. The works shall be to the specification and constructed to the satisfaction of the Highway Authority. Fees are payable for the approval of the highway details, and inspection of the works. Further information and an application form are available on the BMBC website at <https://www.barnsley.gov.uk/services/roads-travel-and-parking/parking/dropped-kerbs/> or please contact at email Streetworks@barnsley.gov.uk or call to 01226 773555.
- 3 The contractor shall ensure that no vehicle leaving the development hereby permitted enters the public highway unless its wheels and chassis are clean. It should be noted that to deposit mud and debris on the public highway is an offence under provisions of the Highways Act 1980.
- 4 A public right of way (Stainborough Bridleway 17) runs adjacent the access to the proposed development site. Safe public access on the right of way should remain available whenever possible, with no obstruction of or encroachment onto the width of the path and no building debris, storage of materials or parked vehicles limiting access at any time. Appropriate measures should be taken to protect the public, including fencing if necessary. If safe public access is not possible at any time then a temporary closure should be arranged, providing at least 4 weeks' notice and details of how public access will be managed. For further information contact publicrightsofway@barnsley.gov.uk.
- 5 The applicant should be aware that the Council is only responsible for maintaining the bridleway in a safe condition for pedestrians, horses and bicycles. Any maintenance to vehicular standard is the responsibility of the landowner and any damage caused to the surface by vehicles should be repaired by the landowner. Cattlegrids are not permitted on bridleways and should not be installed where the bridle gate is. It would be appreciated if the surface approach to and from the 5ft bridle gate could be improved as part of this development. An access gate and cattle grid can be installed in the position of the existing vehicular access gate. Please also note that the bridleway alignment must be maintained and not rerouted by fencing.

Please be aware that the Council monitors construction sites and open land within the vicinity of such sites in an attempt to prevent fly tipping (i.e. unauthorised deposit of waste on land), which is illegal under the Environmental Protection Act 1990. The penalties for fly-tipping can include:

- a fine of up to £50,000 and
- up to six months imprisonment on conviction.

Therefore, if necessary, please ensure that all demolition waste and waste associated with the construction of any development is disposed of via approved methods and that documents are retained to prove this.

The grant of this consent does not constitute or imply permission, approval or consent by the Local Authority for any other purpose.

NOTES:-

Appeals to the Secretary of State

If you are aggrieved by the decision of the Council to grant permission for the proposed development subject to conditions then you can appeal to the Secretary of State for the Environment, Transport and Regions under Section 78 of the Town and Country Planning Act. If you want to appeal, then you must do so within six months of the date of this notice, using a form which you can get from The Planning Inspectorate, Room 3/24 Hawk Wing, Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6PN.

The Secretary of State can allow a longer period for giving notice of an appeal, but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal. The Secretary of State need not consider an appeal if it seems to him that the Local Planning Authority could not have granted planning permission for the proposed development or could not have granted it without the conditions it imposed, having regard to the statutory requirements, to the provisions of the development order and to any directions given under the order. In practice, the Secretary of State does not refuse to consider appeals solely because the Local Planning Authority based its decision on a direction given by him.

Purchase Notices

If either the Local Planning Authority or the Secretary of State for the Environment, Transport and Regions refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor can he render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted. In these circumstances, the owner may serve a purchase notice on the Council in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of part VI of the Town and Country Planning Act 1990.

Compensation

In certain circumstances compensation may be claimed from the Local Planning Authority if permission is refused or granted subject to conditions by the Secretary of State on appeal or on reference to the application to him. These circumstances are set out in Sections 114 and related provisions of the Town and Country Planning Act 1990.
