

GRANT OF PLANNING PERMISSION

TOWN AND COUNTRY PLANNING ACT 1990

APPLICATION NO. 2018/1393

To Gordon Stephenson Architect
10 Parkwood Rise
Barnby Dun
Doncaster
DN3 1LY

DESCRIPTION Demolition of existing farm buildings and erection of 8 dwellings
LOCATION Lowfield Farm, Lowfield Road, Bolton Upon Dearne, Rotherham, S63 8GY

Permission is granted for the proposals which were the subject of the Application and Plans registered by the Council on 09 November 2018 and described above.

The approval is subject on compliance with the following conditions:

- 1 The development hereby permitted shall be begun before the expiration of 3 years from the date of this permission.
Reason: In order to comply with the provision of Section 91 of the Town and Country Planning Act 1990.

- 2 The development hereby approved shall be carried out strictly in accordance with the plans Nos:

820/SL/4 Site Layout;
Location Plan (as amended);
820/LP/2 Landscaping;
820/1/1 Plot 3;
821/5 Plots 5, 6, 7 & 8;
821/2 Plot 2;
821/1 Plot 1;
821/4 Plot 4;
820/1G Proposed Garage (Plot 4 Only);
1714/August 2018 Flood Risk Assessment

and specifications as approved unless required by any other conditions in this permission.

Reason: In the interests of the visual amenities of the locality in accordance with Local Plan Policy D1 High Quality Design and Place Making.

- 3 Prior to the commencement of development plans to show the following levels shall be submitted to and approved by the Local Planning Authority; finished floor levels of all buildings and structures; road levels; existing and finished ground levels. Thereafter the development shall proceed in accordance with the approved details.
Reason: To enable the impact arising from need for any changes in level to be assessed and in accordance with Local Plan D1, Design.

- 4 No development shall take place until full details of the proposed external materials have been submitted to and approved in writing by the Local Planning Authority. The development shall be carried out in accordance with the approved details.
Reason: In the interests of the visual amenities of the locality and in accordance with Local Plan D1, Design
- 5 All planting, seeding or turfing comprised in the approved details of landscaping shall be carried out in the first planting and seeding seasons following the occupation of the buildings or the completion of the development, whichever is the sooner; and any trees or plants which die within a period of 5 years from the completion of the development, are removed, or become seriously damaged or diseased shall be replaced in the next planting season with others of similar size and species.
Reason: In the interests of the visual amenities of the locality, in accordance with Local Plan D1, Design.
- 6 The parking/manoeuvring facilities, indicated on the submitted plan, shall be surfaced in a solid bound material (ie not loose chippings) and made available for the manoeuvring and parking of motor vehicles prior to the development being brought into use, and shall be retained for that sole purpose at all times.
Reason: To ensure that satisfactory off street parking/manoeuvring are provided, in the interests of highway safety and the free and safe flow of traffic and in accordance with Local Plan Policy T4, New Development and Transport Safety.
- 7 Pedestrian intervisibility splays, having the dimensions 2m x 2m, shall be safeguarded at the drive entrance/exit such that there is no obstruction to visibility at a height exceeding 1m above the nearside channel level of the adjacent highway.
Reason: In the interest of road safety in accordance with Local Plan Policy T4, New Development and Transport Safety.
- 8 All surface water run-off shall be collected and disposed of within the site and shall not be allowed to discharge onto the public highway.
Reason: In the interest of road safety in accordance with Local Plan Policy T4, New Development and Transport Safety
- 9 Prior to any works commencing on-site, a condition survey (including structural integrity) of the highways to be used by construction traffic shall be carried out in association with the Local Planning Authority. The methodology of the survey shall be approved in writing by the Local Planning Authority and shall assess the existing state of the highway. On completion of the development a second condition survey shall be carried out and shall be submitted for the written approval of the Local Planning Authority, which shall identify defects attributable to the traffic ensuing from the development. Any necessary remedial works shall be completed at the developer's expense in accordance with a scheme to be agreed in writing by the Local Planning Authority.
Reason: In the interest of road safety in accordance with Local Plan Policy T4, New Development and Transport Safety.
- 10 Vehicular and pedestrian gradients within the site shall not exceed 1:12 to ensure safe and adequate access.
Reason: In the interest of road safety in accordance with Local Plan Policy T4, New Development and Transport Safety.

- 11 No development shall take place, including any works of demolition, until a Construction Method Statement has been submitted to, and approved in writing by, the Local Planning Authority. The approved statement shall be adhered to throughout the construction period. The statement shall provide for:-
- (a) The parking of vehicles of site operatives and visitors;
 - (b) Means of access for construction traffic;
 - (c) Loading and unloading of plant and materials;
 - (d) Storage of plant and materials used in constructing the development;
 - (e) Measures to prevent mud/debris being deposited on the public highway.

Reason: In the interest of road safety in accordance with Local Plan Policy T4, New Development and Transport Safety.

- 12 No development works shall begin until a report, endorsed by a competent engineer experienced in ground contamination and remediation, has been submitted and agreed with the Local Planning Authority. The report shall, amongst other matters, include the following:-
A survey of the extent, scale and nature of contamination.
An assessment of the potential risks to human health, property, adjoining land, groundwaters and surface waters, ecological systems and archaeological sites and ancient monuments.
An appraisal of remedial options, and proposal of the preferred option(s).
A remediation statement summarising the works to be undertaken (if required).

Reason: In accordance with Local Plan Policy CL1 Contaminated and Unstable Land.

- 13 No development shall take place unless and until
- (a) Full foul and surface water drainage details have been submitted to and approved in writing by the Local Planning Authority. Thereafter no part of the development shall be occupied or brought into use until the approved scheme has been fully implemented. The scheme shall be retained throughout the life of the development unless otherwise agreed in writing with the Local Planning Authority.
 - (b) Porosity tests are carried out in accordance with BRE 365, to demonstrate that the subsoil is suitable for soakaways
and
 - (c) Calculations based on the results of these porosity tests to prove that adequate land area is available for the construction of the soakaways are all approved in writing by the Local Planning Authority.

Reason: To ensure the proper drainage of the area in accordance with Local Plan Policy

- 14 The site shall be developed with separate systems of drainage for foul and surface water on and off site.

Reason: In the interest of satisfactory and sustainable drainage in accordance with Local Plan Policy CC4

- 15 There shall be no piped discharge of surface water from the development prior to the completion of surface water drainage works, details of which will have been submitted to and approved by the Local Planning Authority. If discharge to public sewer is proposed, the information shall include, but not be exclusive to:-
- a) evidence to demonstrate that surface water disposal via infiltration or watercourse are not reasonably practical;
 - b) evidence of existing positive drainage to public sewer and the current points of connection; and
 - c) the means of restricting the total discharge to public sewer to the existing rate less a minimum 30% reduction, based on the existing peak discharge rate during a 1 in 1 year storm event, to allow for climate change.

Reason: To ensure that no surface water discharges take place until proper provision has been made for its disposal and in the interest of sustainable drainage in accordance with Local Plan Policy CC4.

- 16 No development shall take place until there has been submitted to and approved in writing by the Local Planning Authority a plan indicating the position of boundary treatment to be erected. The boundary treatment shall be completed before the dwelling is occupied. Development shall be carried out in accordance with the approved details.
Reason: In the interests of the visual amenities of the locality and the amenities of occupiers of adjoining property in accordance with Local Plan Policy Poll1
- 17 Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) (Amendment) (No. 2) (England) Order 2015 (or any Order revoking or re-enacting that Order with or without modification), no enlargement, improvement or other alteration of the dwellings which would otherwise be permitted by Part 1 of Schedule 2 to that Order shall be carried out without the prior written consent of the Local Planning Authority, and no garages or other outbuildings shall be erected.
Reason: To safeguard the privacy and amenities of the occupiers of adjoining residential property in accordance with Local Plan Policy Poll1 and to protect the Green Belt in accordance with Local Plan Policy GB1
- 18 Prior to commencement of development full details of the following mitigation measures:
- (a) Integral Bat and Bird boxes on each house / garage;
 - (b) All the replacement trees are to be native species, preferably fruit bearing;
 - (c) Hedgehog gaps under fences between the gardens; and
- including a timetable for their implementation, shall be submitted to and approved in writing by the Local Planning Authority. The development shall be implemented in accordance with the approved details and maintained for a minimum of 5 years.
Reason: To conserve and enhance biodiversity in accordance with Local Plan Policy BIO1.
- 19 Prior to any construction being undertaken the applicant shall submit to the LPA, for approval, a noise management plan which details how noise will be controlled during the construction stage of the site. The noise management plan should be based on the provisions provided in BS 5228-1 2009. Once approved the applicant shall strictly adhere to the plan.
Reason: In the interests of the amenities of local residents and in accordance with Local Plan Policy Poll1
- 20 Construction and deliveries shall only take place between Monday to Friday 0800-1800 and Saturday 0900-1300. There shall be no work or deliveries on Sundays or Bank Holidays.
Reason: In the interests of the amenities of local residents and in accordance with Local Plan Policy Poll1
- 21 Prior to any construction being undertaken the applicant shall submit to the LPA, for approval, a dust management plan which details how dust will be controlled during the construction stage of the site. Once approved the applicant shall strictly adhere to the dust management plan. Prior to work commencing the applicant shall ensure that there is an adequate supply of water at the site and shall provide the LPA of details of this.
Reason: In the interests of the amenities of local residents and in accordance with Local Plan Policy Poll1

Informative(s)

Pursuant to article 31(1)(cc) of the Town and Country Planning (Development Management Procedure) Order 2010 (as amended), the Local Planning Authority have, where possible, made a pre-application advice service available, complied with our Planning Service Charter for Business and otherwise actively engaged with the applicant in dealing with the application.

Please be aware that the Council monitors construction sites and open land within the vicinity such sites in an attempt to prevent fly tipping (i.e. unauthorised deposit of waste on land), which is illegal under the Environmental Protection Act 1990. The penalties for fly-tipping can include:

- *a fine of up to £50,000 and*
- *up to six months imprisonment on conviction*

Therefore, if necessary, please ensure that all demolition waste and waste associated with the construction of the approved development is disposed of via approved methods and that documents are retained to prove this.

- 1 The proposed development lies within an area that has been defined by The Coal Authority as containing potential hazards arising from former coal mining activity. These hazards can include: mine entries (shafts and adits); shallow coal workings; geological features (fissures and break lines); mine gas and previous surface mining sites. Although such hazards are seldom readily visible, they can often be present and problems can occur in the future, particularly as a result of development taking place.

It is recommended that information outlining how the former mining activities affect the proposed development, along with any mitigation measures required (for example the need for gas protection measures within the foundations), be submitted alongside any subsequent application for Building Regulations approval (if relevant).

Any form of development over or within the influencing distance of a mine entry can be dangerous and raises significant safety and engineering risks and exposes all parties to potential financial liabilities. As a general precautionary principle, the Coal Authority considers that the building over or within the influencing distance of a mine entry should wherever possible be avoided. In exceptional circumstance where this is unavoidable, expert advice must be sought to ensure that a suitable engineering design is developed and agreed with regulatory bodies which takes into account of all the relevant safety and environmental risk factors, including gas and mine-water.

Your attention is drawn to The Coal Authority Policy in relation to new development and mine entries available at:

<https://www.gov.uk/government/publications/building-on-or-within-the-influencing-distance-of-mine-entries>

- 2 Any intrusive activities which disturb or enter any coal seams, coal mine workings or coal mine entries (shafts and adits) requires a Coal Authority Permit. Such activities could include site investigation boreholes, digging of foundations, piling activities, other ground works and any subsequent treatment of coal mine workings and coal mine entries for ground stability purposes. Failure to obtain a Coal Authority Permit for such activities is trespass, with the potential for court action.

Property-specific summary information on past, current and future coal mining activity can be obtained from: www.groundstability.com or a similar service provider.

If any coal mining features are unexpectedly encountered during development, this should be reported immediately to the Coal Authority on 0345 762 6848. Further information is available on the Coal Authority website at:

www.gov.uk/government/organisations/the-coal-authority

- 3 The granting of planning permission does not in any way infer that consent of the landowner is given. Therefore the consent of all relevant landowners is required before proceeding with any development including that of the Council as landowner.

If it should transpire that the applicant does not own any of the land included in this consent then it is the responsibility of the applicant to seek all necessary consents and approvals of the landowner.

Signed 
Joe Jenkinson
Head of Planning and Building Control

Dated 15 March 2019

The grant of this consent does not constitute or imply permission, approval or consent by the Local Authority for any other purpose.

NOTES:-

Appeals to the Secretary of State

If you are aggrieved by the decision of the Council to grant permission for the proposed development subject to conditions then you can appeal to the Secretary of State for the Environment, Transport and Regions under Section 78 of the Town and Country Planning Act. If you want to appeal, then you must do so within six months of the date of this notice, using a form which you can get from The Planning Inspectorate, Room 3/24 Hawk Wing, Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6PN.

The Secretary of State can allow a longer period for giving notice of an appeal, but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal. The Secretary of State need not consider an appeal if it seems to him that the Local Planning Authority could not have granted planning permission for the proposed development or could not have granted it without the conditions it imposed, having regard to the statutory requirements, to the provisions of the development order and to any directions given under the order. In practice, the Secretary of State does not refuse to consider appeals solely because the Local Planning Authority based its decision on a direction given by him.

Purchase Notices

If either the Local Planning Authority or the Secretary of State for the Environment, Transport and Regions refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor can he render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted. In these circumstances, the owner may serve a purchase notice on the Council in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of part VI of the Town and Country Planning Act 1990.

Compensation

In certain circumstances compensation may be claimed from the Local Planning Authority if permission is refused or granted subject to conditions by the Secretary of State on appeal or on reference to the application to him. These circumstances are set out in Sections 114 and related provisions of the Town and Country Planning Act 1990.
