Consultation Assessment and Justification

Thank you for consulting Highways Development Control on this application.

The application seeks permission for the installation of a dropped crossing to facilitate off street parking to the front of the property.

Whilst it is a requirement for dwellings to provide sufficient room for vehicles to turn within the site curtilage when access is taken from a classified road, I note that neighbouring properties have driveways with no available turning, as such a precedent has been set in the location.

As such, there are no objections to the application from a highways point of view.

Many thanks,

Sarah Sharp
