BARNSLEY
Metropolitan Borough Council

GRANT OF PLANNING PERMISSION

TOWN AND COUNTRY PLANNING ACT 1990

APPLICATION NO. 2013/0528

To Mr Paul Wright
Site 4 Self Build
BBIC
Innovation Way
Barnsley
South Yorkshire
S75 1JL

DESCRIPTION Residential development of 23 no. dwellings.
LOCATION Land at Hill Top Lane, Barnsley, South Yorkshire, S75 2RF

Permission is granted for the proposals which were the subject of the Application and Plans registered by the Council on 17 May 2013 and described above.

The approval is subject on compliance with the following conditions:

1 The development hereby permitted shall be begun before the expiration of 3 years from the date of this permission.
Reason: In order to comply with the provision of Section 91 of the Town and Country Planning Act 1990.

2 The development hereby approved shall be carried out strictly in accordance with the following plans and specifications as approved unless required by any other conditions in this permission:

Site Plan: SP16
Street Elevations: SP1-3/16, SP4-6/16, SP7-12/16 & SP13-23/16
House Types: Fir (Plots 1,2,4,5,13,14,15 & 16), Dagwood (Plots 3 & 7), Beech (Plots 6,10,11,17,19,21 & 23), Ash (Plots 8,9,12,20 & 22) Chestnut (Plot 18)
Garages
Reason: In the interests of the visual amenities of the locality and in accordance with LDF Core Strategy Policy CSP 29, Design.

Stephen Moralee

The grant of this consent does not constitute or imply permission, approval or consent by the Local Authority for any other purpose.

Signed
Head of Planning, Building Control and Sustainability

Dated 26 July 2013

Development Service
PO Box 604, Barnsley, S70 9FE
Telephone: 01226 - 772000
Fax: 01226 - 772591

3 No development shall take place until full details of the proposed external materials have been submitted to and approved in writing by the Local Planning Authority. The development shall be carried out in accordance with the approved details.
Reason: In the interests of the visual amenities of the locality and in accordance with Core Strategy Policy CSP 29, Design.

4 No development shall take place until there has been submitted to and approved in writing by the Local Planning Authority, full details of both hard and soft landscaping works, including a proposed wildflower meadow and details of the species, positions and planted heights of proposed trees and shrubs; together with details of the position and condition of any existing trees and hedgerows to be retained. The approved hard landscaping details shall be implemented prior to the occupation of the building(s).
Reason: In the interests of the visual amenities of the locality and in accordance with Core Strategy Policy CSP 36, Biodiversity and Geodiversity.

5 All planting, seeding or turfing comprised in the approved details of landscaping shall be carried out in the first planting and seeding seasons following the occupation of the buildings or the completion of the development, whichever is the sooner; and any trees or plants which die within a period of 5 years from the completion of the development, are removed, or become seriously damaged or diseased shall be replaced in the next planting season with other of similar size and species.
Reason: In the interests of the visual amenities of the locality and in accordance with Core Strategy Policy CS`P 36, Biodiversity and Geodiversity.

6 A landscape management plan for the village green and vegetable patch, including long term design objectives, management responsibilities and maintenance schedules for all landscape areas, shall be submitted to and approved by the Local Planning Authority prior to the occupation of the development or any part thereof, whichever is the sooner, for its permitted use. The landscape management plan shall be carried out in accordance with the approved plan.
Reason: In the interests of the visual amenities of the locality and in accordance with Core Strategy Policy CSP 36, Biodiversity and Geodiversity.

7 No development shall take place until:

(a) Full foul and surface water drainage details, including a scheme to maintain or reduce existing greenfield surface water run-off rates and a programme of works for implementation, have been submitted to and approved in writing by the Local Planning Authority:

(b) Porosity tests are carried out in accordance with BRE 365, to demonstrate that the subsoil is suitable for soakaways;

(c) Calculations based on the results of these porosity tests to prove that adequate land area is available for the construction of the soakaways;

Thereafter no part of the development shall be occupied or brought into use until the approved scheme has been fully implemented. The scheme shall be retained throughout the life of the development.
Reason: To ensure proper drainage of the area in accordance with Core Strategy Policy CSP 40, Pollution Control and Protection.

8 No piped discharge of surface water from the application site shall take place until works to provide a satisfactory outfall for surface water have been completed in accordance with details to be submitted to and approved in writing by the Local Planning Authority before development commences.
Reason: To ensure that the site is properly drained and surface water is not discharged to the foul sewerage system, which will prevent overloading in accordance with Core Strategy Policy CSP 40, Pollution Control and Protection.

9 No development shall take place, including any works of demolition, until a Construction Method Statement has been submitted to, and approved in writing by, the Local Planning Authority. The approved Statement shall be adhered to throughout the construction period. The Statement shall provide for:
-The parking of vehicles of site operatives and visitors
-Means of access for construction traffic
-Loading and unloading of plant and materials
-Storage of plant and materials used in constructing the development
-The erection and maintenance of security hoarding including decorative displays and facilities for public viewing, where appropriate
-Wheel washing facilities
-Measures to control the emission of dust and dirt during construction
-Measures to control noise levels during construction
Reason: In the interests of highway safety, residential amenity and visual amenity and in accordance with Core Strategy Policy CSP 26, New Development and Highway Improvement, and CSP 29, Design.

10 Prior to any works commencing on-site, a condition survey (including structural integrity) of the highways to be used by construction traffic shall be carried out in association with the Local Planning Authority. The methodology of the survey shall be approved in writing by the Local Planning Authority and shall assess the existing state of the highway. On completion of the development a second condition survey shall be carried out and shall be submitted for the written approval of the Local Planning Authority, which shall identify defects attributable to the traffic ensuing from the development. Any necessary remedial works shall be completed at the developer's expense in accordance with a scheme to be agreed in writing by the Local Planning Authority
Reason: In the interest of highway safety, in accordance with Core Strategy Policy CSP 26.

11 Development shall not commence until full highway engineering construction details have been submitted to and approved in writing by the Local Planning Authority. The development shall be completed in accordance with the approved details and thereafter be retained as such.
Reason: In the interest of highway safety, in accordance with Core Strategy Policy CSP 26.

12 Development shall not commence until details of the phasing of the development has been submitted and approved in writing by the Local Planning Authority. The development shall be implemented in accordance with the approved details.
Reason: In the interest of highway safety, in accordance with Core Strategy Policy CSP 26.

13 The dwellings shall achieve a minimum of Code Level 3, in accordance with the requirements of the Code for Sustainable Homes: Technical Guide (or such national measure of sustainability for house design that replaces that scheme). No dwelling shall be occupied until a Final Code Certificate has been submitted to the Local Planning Authority certifying that Code Level 3 has been achieved.
Reason: In the interest of sustainable development in accordance with Core Strategy Policy CSP2.

14 Prior to commencement of development, details of a scheme to reduce the developments carbon dioxide emissions by at least 15% by using decentralised, renewable or low carbon energy sources or other appropriate design measures shall be submitted to and approved in writing by the Local Planning Authority. The development shall be carried out in accordance with the approved details and upon completion of the development a report shall be submitted to and approved by the Local Planning Authority demonstrating that at least a 15% reduction in carbon dioxide emissions has been achieved. In the event that the use of other decentralised, renewable or low carbon energy sources or other appropriate design measures are also required to achieve a 15% reduction in carbon dioxide emissions, full details of such proposals and a timetable for their implementation shall be submitted to and approved in writing by the Local Planning Authority prior to installation. The approved details shall be implemented in accordance with the approved timetable and all the approved measures shall be retained as operational thereafter.
Reason: In the interest of sustainable development, in accordance with Core Strategy policy CSP5.

15 Prior to the commencement of development plans to show the following levels shall be submitted to and approved by the Local Planning Authority; finished floor levels of all buildings and structures; road levels; existing and finished ground levels. Thereafter the development shall proceed in accordance with the approved details.
Reason: To enable the impact arising from need for any changes in level to be assessed and in accordance with Core Strategy Policy CSP 29, Design.

16 The erection of barrier's for the protection of any retained tree shall be undertaken in accordance with the approved plans and particulars before any equipment, machinery or materials are brought on to the site for the purposes of the development, and shall be maintained until all equipment, machinery and surplus materials have been removed from the site. Nothing shall be stored or placed in any area fenced off in accordance with this condition and the ground levels within those areas shall not be altered, nor shall any excavation be made, without the written consent of the Local Planning Authority.
Reason: To safeguard existing trees, in the interest of visual amenity in accordance with Core Strategy Policy CSP29.

17 Pedestrian intervisibility splays, having the dimensions 2m x 2m, shall be safeguarded at the drive entrance/exit such that there is no obstruction to visibility at a height exceeding 1m above the nearside channel level of the adjacent highway.
Reason: In the interest of highway safety, in accordance with Core Strategy Policy CSP 26.

18 Prior to commencement of development, details of the parking/manoeuvring areas for all the plots shall be submitted to and approved in writing by the Local Planning Authority. The parking/manoeuvring facilities, shall be surfaced in a solid bound material (i.e. not loose chippings) and made available for the manoeuvring and parking of motor vehicles prior to the development being brought into use, and shall be retained for that sole purpose at all times.
Reason: To ensure that satisfactory off-street parking/manoeuvring areas are provided, in the interests of highway safety and the free flow of traffic and in accordance with Core Strategy Policy CSP 26, New Development and Highway Improvement.

19 Vehicular and pedestrian gradients within the site shall not exceed 1:12 to ensure safe and adequate access
Reason: In the interest of highway safety, in accordance with Core Strategy Policy CSP 26.

20 Construction or remediation work comprising the use of plant, machinery or equipment, or deliveries of materials shall only take place between the hours of 0800 to 1800 Monday to Friday and 0900 to 1400 on Saturdays and at no time on Sundays or Bank Holidays.
Reason: In the interests of the amenities of local residents and in accordance with Core Strategy Policy CSP 40, Pollution Control and Protection.

21 Prior to commencement of development, arrangements shall be entered into that legally secure the following restrictions on the site:

-Sales shall be to individual owner occupiers;
-No one person shall buy more than one property in the development;
-No more than one dwelling shall be owned/occupied by relatives of the owner/developer;
-Buyers of at least 20 of the properties shall not pay more than 75% of an agreed open market value when they purchase the plot and the costed template;
-If any of these 20 dwellings are sold on within 3 years of completion of the dwelling, they shall be sold at no more than:
80% of open market value if sold within 1 year
85% of open market value is sold within 2 years
90% of open market value if sold within 3 years
- After 3 years there shall be no restriction on how much the dwellings could be sold on for but the 3 year period will be apply to any sale within the period and not just the first sale.

The development shall be carried out in accordance with the approved restrictions.
Reason: In the interest of ensuring the scheme is implemented as a self-build development, in order to justify not imposing the affordable housing requirement set out in policy CSP 15.

Informative(s)

Pursuant to article 31(1)(cc) of the Town and Country Planning (Development Management Procedure) Order 2010 (as amended), the Local Planning Authority have, where possible, made a pre-application advice service available, complied with our Planning Service Charter for Business and otherwise actively engaged with the applicant in dealing with the application.

1 The proposed development lies within an area that has been defined by The Coal Authority as containing potential hazards arising from former coal mining activity. These hazards can include: mine entries (shafts and adits); shallow coal workings; geological features (fissures and break lines); mine gas and previous surface mining sites. Although such hazards are seldom readily visible, they can often be present and problems can occur in the future, particularly as a result of development taking place.

It is recommended that information outlining how the former mining activities affect the proposed development, along with any mitigation measures required (for example the need for gas protection measures within the foundations), be submitted alongside any subsequent application for Building Regulations approval (if relevant). Your attention is drawn to the Coal Authority policy in relation to new development and mine entries available at www.coal.decc.gov.uk

Any intrusive activities which disturb or enter any coal seams, coal mine workings or coal mine entries (shafts and adits) requires the prior written permission of The Coal Authority. Such activities could include site investigation boreholes, digging of foundations, piling activities, other ground works and any subsequent treatment of coal mine workings and coal mine entries for ground stability purposes. Failure to obtain Coal Authority permission for such activities is trespass, with the potential for court action.

Property specific summary information on past, current and future coal mining activity can be obtained from The Coal Authority's Property Search Service on 0845 762 6848 or at www.groundstability.com

If any of the coal mining features are unexpectedly encountered during development, this should be reported immediately to The Coal Authority on 0845 762 6848. Further information is available on The Coal Authority website www.coal.decc.gov.uk

NOTES:-

Appeals to the Secretary of State

If you are aggrieved by the decision of the Council to grant permission for the proposed development subject to conditions then you can appeal to the Secretary of State for the Environment, Transport and Regions under Section 78 of the Town and Country Planning Act. If you want to appeal, then you must do so within six months of the date of this notice, using a form which you can get from The Planning Inspectorate, Room 3/24 Hawk Wing, Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6PN.

The Secretary of State can allow a longer period for giving notice of an appeal, but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal. The Secretary of State need not consider an appeal if it seems to him that the Local Planning Authority could not have granted planning permission for the proposed development or could not have granted it without the conditions it imposed, having regard to the statutory requirements, to the provisions of the development order and to any directions giving under the order. In practice, the Secretary of State does not refuse to consider appeals solely because the Local Planning Authority based its decision on a direction given by him.

Purchase Notices

If either the Local Planning Authority or the Secretary of State for the Environment, Transport and Regions refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor can he render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted. In these circumstances, the owner may serve a purchase notice on the Council in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of part VI of the Town and Country Planning Act 1990.

Compensation

In certain circumstances compensation may be claimed from the Local Planning Authority if permission is refused or granted subject to conditions by the Secretary of State on appeal or on reference to the application to him. These circumstances are set out in Sections 114 and related provisions of the Town and Country Planning Act 1990.
