

My concern is if you double yellow

Line front off nursery approaching new roundabout this will close my business as at busy periods my customers rely on parking on road at front of nursery because we only av a small car park only get 10 cars in comfortable

It would be good if I could buy a bit off land at back of nursery to create more parking but probity a bit too late ?

At busy periods we r yearly busy

Then I've got 1700 houses coming at back of nursery which his good for business en they will all want plants compost etc

But if u double yellow line front of nursery I won't av anoth parking
