TO WHOM IT MAY CONCERN

**Supporting Statement re-Planning at West Road, Pogmoor, Barnley –  
Engineering Works.**

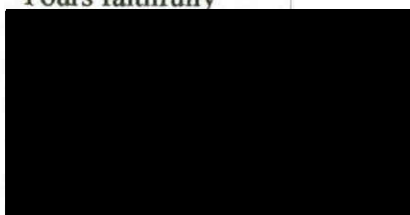

The type of imported material which will be used to lift the site to the proposed final level will be engineered fill, this will be overseen by Wardell Armstrong Consulting Engineers.

Compaction tests will be carried out P.S.L. at 2m thickness.

Our estimate of the amount of fill material required will be approximately 12000m<sup>3</sup>.

The proposed number of vehicle movements will be 20 per day.

Yours faithfully

Michael J Barrett  
Director
