LAP

Proposed footway connection to existing path.

Group of vegetation to be reduced to allow for creation of new footway

Maintenance strip to be kept clear of vegetation

KEY:

Ibstock Integrated bat tube location - to be installed at soffit level on south to west facing elevations.

Habibat Sparrow Nest Box - to be installed on north to east facing elevations.

Bird and Bat box implementation will be phased through completion of plots across the development. The relevant bird/bat box is built into the gable wall of the relevant dwelling during superstructure works and on completion of each dwelling the box will be operational. Build programme is from late 2022 up until summer 2026.

REV:	DESCRIPTION:	BY:	DATE:
A	Note added to drawing for the implementation of the bird & bat boxes throughout the development.	JB	01.09.22
