Dear Elaine,

Noise Impact Assessment – Land at Oaks Lane, Stairfoot, Barnsley

A Noise Impact Assessment has been submitted as part of the application for a Short Term Operating Reserve at Oaks Lane, Stairfoot. This assessment was modelled on the initial layout of 9 generators, however the layout has since been amended to 10 generators.

Unfortunately the Noise Consultant has gone on Annual Leave and is unable to amend the report until his return. This letter is an interim measure to inform you that the report will be updated shortly to reflect the change and will be formally submitted in due course.

Meanwhile, the noise consultant has commented briefly that the effect of a 10th generator would be an uplift of 0.5db on the current predictions however, the overall assessment of impact contained in the report would remain the same.

The original noise assessment has been submitted for your immediate reference.

If you have any queries please do not hesitate to get in touch.

Yours sincerely,

Rachael Walker (BSc Hons)
