- Outdoor walkway Public / Pedestrian Accessible areas
- Temporary Meat & Fish Servicing zone
- Phase Boundary
- Basement Line Below
- Existing Building above to be demol
- Cut Line
- Hoarding Area Of hoarding zone (1hr fire rating)
- Hoarding Area Of hoarding zone (2hr fire rating)

OCCUPYING THE NEW MARKET BUILDING.

At an agreed date, the New Market Building will be handed over by the main contractor. Stalls fit-out and stocking will take place over a period to be agreed. The plan is that trading can cease on one day and the new market open for trading the next. The logistics for achieving this need to be developed. Details have to be agreed as to how stalls fit out will be carried out and during what 'run up' period.

The temporary service access points are illustrated on the Interchange level diagram. In particular:

- A temporary service yard will be available for four refrigerated vans adjacent to the Meat and Fish circulation corridor. This dedicated space is available for constant use through the working day.

-The van unloading service yard off Kendray Street will be fully operational and available.

- The van unloading service yard at the Interchange level will be available for storage and accessible via stairs and lifts. It will not be available to vans until the new retail basement service yard is operational.

Pedestrian circulation and market traders accessible areas are illustrated on both plans. This route will be diverted through The Market and the Kendray Street staircase/lifts, whilst "Market Square" is used as temporary unloading bays.

Notes:
Do not remove this panel from the drawing
No dimensions to be scaled from this drawing
Report all errors and omissions to the Architect
Dimensions to be checked on site before fabrication
