Detailed Description of Proposed Works

The proposal is for a larger rear extension in replacement of an existing rear conservatory. The application form denoted a rear projection of 6m, but the planning agent has confirmed this should have been 5m, which is in accordance with the he supplied plans. Along with an approximate rear projection of 5m, the extension has a width of approximately 3.9m.

Originally the roof was proposed to be a pitched roof with an eave's height of 2.6m, and a maximum roof height of 4m. The revised plans have altered this to a flat roof with an approximate eaves and flat roof height of approximately 3m. A roof lantern is also proposed with a maximum height of 3.2m (from ground level).

Materials have not been specified but materials of a similar appearance to the original house, for example red brick work would be required.

The cumulative size of the proposed extension and existing outbuilding indicated on the location plan would not cover more than 50% of the net curtilage, once the original dwellinghouse has been discounted.

Consultations

The application has been advertised in accordance with Section A.4 (5) of Part 1 Class A of the Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended). No representations have been received.
