

GRANT OF PLANNING PERMISSION

TOWN AND COUNTRY PLANNING ACT 1990

APPLICATION NO. 2026/0188

To Oak and Prosper
The Hart of Barnby Dun Top Road
Barnby Dun
Doncaster
DN3 1DA

DESCRIPTION Demolition of existing outbuilding and erection of 2no. extensions to the existing cricket clubhouse with associated hard and soft landscaping (Amended Description)

LOCATION Higham Cricket Club, Royd Lane, Higham, Barnsley, S75 1PH

Permission is **granted** for the proposals which were the subject of the Application and Plans registered by the Council on 01/04/2026 and described above.

The approval is subject on compliance with the following conditions:

- 1 The development hereby permitted shall be begun before the expiration of 3 years from the date of this permission.
Reason: In order to comply with the provision of Section 91 of the Town and Country Planning Act 1990.

- 2 The development hereby approved shall be carried out strictly in accordance with the amended plans:

042026-OP-ZZ-ZZ-DR-A-01010-S2-P2-Proposed Site Plan received 7th May 2026.

042026-OP-ZZ-ZZ-DR-A-01015-S2-P2-Proposed Plans and Elevations.

042026-OP-ZZ-ZZ-DR-A-01020-S2-P1-Design and Access Statement.

25343-DCE-XX-XX-D-C-100-P01-Drainage Strategy.

Coal Mining Risk Assessment produced by Envirosolution Ltd ref. ES04084 version. 1 and dated 26th March 2026.

and specifications as approved unless required by any other conditions in this permission.

Reason: In the interests of the visual amenities of the locality and in accordance with Local Plan Policy D1: High Quality Design and Place Making.

3 No development shall commence until;

- a) a scheme of intrusive site investigations has been carried out on site to establish the risks posed to the development by past coal mining activity; and
- b) any remediation works and/or mitigation measures to address land instability arising from coal mining legacy, as may be necessary, have been implemented on site in full in order to ensure that the site is made safe and stable for the development proposed.

The intrusive site investigations and remedial works shall be carried out in accordance with authoritative UK guidance.

Reason: In the interests of land stability and in accordance with paragraphs 187(e), 187(f), 196(a), 196(b), 196 (c) and 197 of the NPPF and in accordance with Local Plan Policy CL1: Contaminated and Unstable Land.

4 No development shall commence until details of measures to prevent mud/debris from being deposited on to the public highway have been submitted to and approved in writing by the local planning authority. The approved measures shall be retained for the entire construction period.

Reason: In the interests of highway safety and the free flow of traffic and in accordance with Local Plan Policy T4: New Development and Transport Safety.

5 No above ground works shall commence until a scheme of additional biodiversity mitigation and enhancement measures, such as the incorporation of permanent bat roosting feature(s), and nesting opportunities for birds, has been submitted to and approved in writing by the local planning authority. The approved scheme shall be implemented in full prior to the development being brought into use and shall be retained thereafter. The scheme shall include, but not limited to, the following details:

- a) Description, design or specification of the type of feature(s) or measure(s) to be undertaken;
- b) Materials and construction to ensure long lifespan of the feature/measure;
- c) A drawing(s) showing the location and where appropriate the elevation of the features or measures to be installed or undertaken;
- d) When the features or measures will be installed within the construction, occupation, or phase of the development.

Reason: In the interests of biodiversity mitigation and enhancement and in accordance with Local Plan Policy BIO1: Biodiversity and Geodiversity.

6 Prior to the occupation of the development, a signed statement or declaration prepared by a suitably competent person confirming that the site is, or has been made, safe and stable for the approved development shall be submitted to and approved in writing by the local planning authority. This document shall confirm the methods and findings of the intrusive site investigations and the completion of any remedial work and/or mitigation necessary to address the risks posed by past coal mining activity.

Reason: In the interests of land stability and in accordance with paragraphs 187(e), 187(f), 196(a), 196(b), 196 (c) and 197 of the NPPF and in accordance with Local Plan Policy CL1: Contaminated and Unstable Land.

7 The external materials shall match those used in the existing building and specified by the approved documents listed above.

Reason: In the interests of the visual amenities of the locality and in accordance with Local Plan Policy D1: High Quality Design and Place Making.

- 8 Construction or demolition-related activity shall only take place between the hours of 08:00am – 18:00pm Monday to Fridays, 09:00am – 14:00pm Saturdays and at no time on Sundays and Bank Holidays.
Reason: To reduce or remove adverse impacts on health and the quality of life, especially for people living and/or working nearby, in accordance with Local Plan Policy POLL1: Pollution Control and Protection.
- 9 There shall be no burning of any material on the development site during the demolition and construction phases.
Reason: To reduce or remove adverse impacts on health and quality of life, especially for people living and/or working nearby, in accordance with Local Plan Policy POLL1: Pollution Control and Protection.
- 10 The parking/manoeuvring facilities, indicated on the submitted plan, shall be surfaced in a solid bound material (i.e. not loose chippings) and made available for the manoeuvring and parking of motor vehicles prior to the development being brought into use, and shall always be retained for that sole purpose.
Reason: To ensure that satisfactory off-street parking/manoeuvring areas are provided, in the interests of highway safety and the free flow of traffic and in accordance with Local Plan Policy T4: New Development and Transport Safety.

Informative(s)

Pursuant to article 35 (2) of the Town and Country Planning (Development Management Procedure) Order 2015 (as amended), the Local Planning Authority have, where possible, made a pre-application advice service available, and otherwise actively engaged with the applicant in dealing with the application in a positive and proactive manner.

- 1 The granting of planning permission does not in any way infer that consent of the landowner is given. Therefore, the consent of all relevant landowners is required before proceeding with any development, including that of the Council as landowner.

If it should transpire that the applicant does not own any of the land included in this consent, then it is the responsibility of the applicant to seek all necessary consents and approvals of the landowner.

- 2 It is recommended that measures are taken to prevent a nuisance/ or effect the quality of life of local residents. Please note that the Council's Pollution Control Team have a legal duty to investigate any complaints about noise, smoke or dust. No waste should be burnt. If a statutory nuisance is found to exist, they must serve an Abatement Notice under the Environmental Protection Act 1990. Failure to comply with the requirements of an Abatement Notice may result in a fine of up to £20,000 upon conviction in Magistrates' Court. ∴ It is therefore recommended that you give serious consideration to the steps that may be required to prevent a noise, dust or smoke nuisance from being created.

- 3 Please note that planning permission does not override or preclude the requirement to comply with protected species legislation. Bats and their roosts and nesting birds are fully protected by law. Should bats, or evidence of bats be found (or be suspected to be present) and/or nesting birds noted at any time during construction, work must cease immediately and Natural England and/or a suitably qualified professional ecologist must be contacted for advice.

- 4 Ground Investigations –

Any intrusive activities which disturb or enter any coal seams, coal mine workings or coal mine entries (shafts and adits) requires a Mining Remediation Authority Permit. Such activities could include site investigation boreholes, excavations for foundations, piling activities, other ground works and any subsequent treatment of coal mine workings and coal mine entries for ground stability purposes. Application forms for Mining Remediation Authority permission and further guidance can be obtained from The Mining Remediation Authority's website at: www.gov.uk/get-a-permit-to-deal-with-a-coal-mine-on-your-property
What is a permit and how to get one? - GOV.UK (www.gov.uk).

- 5 Shallow coal seams –

In areas where shallow coal seams are present caution should be taken when carrying out any on site burning or heat focused activities.

Please be aware that the Council monitors construction sites and open land within the vicinity of such sites in an attempt to prevent fly tipping (i.e. unauthorised deposit of waste on land), which is illegal under the Environmental Protection Act 1990. The penalties for fly-tipping can include:

- a fine of up to £50,000 and
- up to six months imprisonment on conviction.

Therefore, if necessary, please ensure that all demolition waste and waste associated with the construction of any development is disposed of via approved methods and that documents are retained to prove this.

Signed:

Dated: 22 May 2026

A handwritten signature in black ink, consisting of a stylized 'G' and 'H' followed by a horizontal line.

Garry Hildersley

Head of Planning, Policy & Building Control
Growth & Sustainability Directorate

The grant of this consent does not constitute or imply permission, approval or consent by the Local Authority for any other purpose.

NOTES:-

Appeals to the Secretary of State

If you are aggrieved by the decision of the Council to grant permission for the proposed development subject to conditions then you can appeal to the Secretary of State for the Environment, Transport and Regions under Section 78 of the Town and Country Planning Act. If you want to appeal, then you must do so within six months of the date of this notice, using a form which you can get from The Planning Inspectorate, Room 3/24 Hawk Wing, Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6PN.

The Secretary of State can allow a longer period for giving notice of an appeal, but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal. The Secretary of State need not consider an appeal if it seems to him that the Local Planning Authority could not have granted planning permission for the proposed development or could not have granted it without the conditions it imposed, having regard to the statutory requirements, to the provisions of the development order and to any directions giving under the order. In practice, the Secretary of State does not refuse to consider appeals solely because the Local Planning Authority based its decision on a direction given by him.

Purchase Notices

If either the Local Planning Authority or the Secretary of State for the Environment, Transport and Regions refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor can he render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted. In these circumstances, the owner may serve a purchase notice on the Council in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of part VI of the Town and Country Planning Act 1990.

Compensation

In certain circumstances compensation may be claimed from the Local Planning Authority if permission is refused or granted subject to conditions by the Secretary of State on appeal or on reference to the application to him. These circumstances are set out in Sections 114 and related provisions of the Town and Country Planning Act 1990.

STATUTORY BIODIVERSITY NET GAIN CONDITION

DEEMED CONDITION

(As required Schedule 7a of the Town and Country Planning Act 1990 (as amended) and inserted by the Environment Act 2021)

Development may not be begun unless:

1. A Biodiversity Gain Plan has been submitted to the planning authority; and
2. The Local Planning Authority has approved the plan.

The Biodiversity Gain Plan must include:

- a) information about the steps taken or to be taken to minimise the adverse effect of the development on the biodiversity of the onsite habitat and any other habitat;
- b) the pre-development biodiversity value of the onsite habitat;
- c) the post-development biodiversity value of the onsite habitat;
- d) any registered offsite biodiversity gain allocated to the development and the biodiversity and the biodiversity value of that gain in relation to the development;
- e) any biodiversity credits purchased for the development; and
- f) any such other matters as the Secretary of State may by regulations specify.

In addition, under Articles 37C(2) and 37C(4) of The Town and Country Planning (Development Management Procedure) (England) Order 2015, the following specified matters are required, where development is not to proceed in phases:

- g) name and address of the person completing the Plan, and (if different) the person submitting the Plan;
- h) a description of the development and planning permission reference number (to which the plan relates);
- i) the [relevant date](#), for the purposes of calculating the pre-development biodiversity value of onsite habitats and if proposing an earlier date, the reasons for using this earlier date;
- j) [the completed biodiversity metric calculation tool\(s\)](#), stating the publication date of the tool(s), and showing the calculation of the pre-development onsite value on the [relevant date](#), and post-development biodiversity value;
- k) a description of arrangements for maintenance and monitoring of habitat enhancement to which paragraph 9(3) of Schedule 7A to the 1990 Act applies (habitat enhancement which must be maintained for at least 30 years after the development is completed);
- l) (except for onsite irreplaceable habitats) a description of how the biodiversity gain hierarchy will be followed and where to the extent any actions (in order of priority) in that hierarchy are not followed and the reason for that;
- m) pre-development and post-development plans showing the location of onsite habitat (including any irreplaceable habitat) on the [relevant date](#), and drawn to an identified scale and showing the direction of North;
- n) a description of any [irreplaceable habitat](#) on the land to which the plan relates which exist on the [relevant date](#), and any part of the development for which planning permission is granted where the onsite habitat of that part is irreplaceable habitat arrangements for compensation for any impact the development has on the biodiversity of the irreplaceable habitat; and
- o) if [habitat degradation](#) has taken place:
 - i. a statement to this effect,
 - ii. the date immediately before the degradation activity,
 - iii. the completed biodiversity tool showing the calculation of the biodiversity value of the onsite habitat on that date, and
 - iv. any available supporting evidence for the value.

INFORMATIVE 1

When calculating the post-development biodiversity value of a habitat, the Local Planning Authority can only take into account an increase in biodiversity value post-development where it is satisfied that the habitat creation or enhancements delivering the increase will be maintained for at least 30 years after the development is completed. This must be secured either by a planning condition, planning obligation, or conservation covenant

INFORMATIVE 2

The General Biodiversity Gain Condition has a separate legal basis in contrast to other planning conditions and will apply to all planning permissions, unless exempt. The General Biodiversity Gain Condition will therefore not appear on the decision notice along with the list of planning conditions imposed on the application, rather it will be referenced separately.

The General Biodiversity Gain Condition cannot be varied or removed by an application under section 73 of the Town and Country Planning Act. It also cannot be discharged as part of the grant of planning permission.

INFORMATIVE 3

A Biodiversity Net Gain Template can be found here:

<https://www.gov.uk/government/publications/biodiversity-gain-plan>

INFORMATIVE 4

The statutory deemed condition above is relevant to all major applications submitted since 12th February 2024 and to all non-major applications submitted after 2nd April 2024, unless exempt.

The onus is on the applicant/agent to notify the Local Planning Authority at developmentmanagement@barnsley.gov.uk if the application was exempt and provide the reasons for the exemption. Exemptions can be found at this link <https://www.gov.uk/guidance/biodiversity-net-gain-exempt-developments>
