5. What Are You Applying For?

Are you seeking consent for works to tree(s) subject to a TPO? ☒ Yes ☐ No

Are you wishing to carry out works to tree(s) in a conservation area? ☐ Yes ☐ No

6. Tree Preservation Order Details

If you know which TPO protects the tree(s), enter its title or number below.

GROUP TPO 1-1953
GROUP 6

7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).

Please provide the following information below: tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

To trim overhanging trees to Pinfold Hill. To crown lift to 5m.
To remove 2x trees as considered 'dangerous'.
To trim overhanging trees to Kingwell Road (liaising with BMC for 1 way road closure.) To remove trees which are pushing wall onto road along Kingwell Road. Please see attached photos + plans.

7. Identification Of Tree(s) And Description Of Works continued ...

The tree marked 'X' along Pinfold Hill is top heavy and the trunk is buckled, threatening to fall into Pinfold Hill road. The second tree along Pinfold Hill is also top heavy and leaning.

The trees along Kingwell road have caused the wall to bulge into the pavement with the threat of collapse. Following a site visit with Andy Dittan and Andrea Jackson, it was advised this was dealt with immediately & has been done so. The trees along the roadside require trimming to 5m to prevent overhang into the road.

8. Trees - Additional Information

Additional information may be attached to electronic communications or provided separately in paper format.

For all trees

A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer.
