PLANNING CONSULTATION RESPONSE

Application No	2026/0875
Proposal	Construction of a new car park to serve Penistone Railway Station with associated access, landscaping, lighting, drainage, utilities, relocation of the existing substation, boundary treatments and other ancillary works
Address	Land to the west of Lairds Way, Spring Vale, Sheffield
Date of Consultation Reply	15/10/2026
Consultee	Highway Drainage

Consultation Assessment and Justification

.

There are proposed drainage details shown on the FRA submitted, with the application form describing surface water discharging to "Mains", Whilst this
is not very helpful in allowing me to make constructive comments, due to the limited scope of the works and the fact that the area well served by sewers, I consider that a conditional approval
is appropriate in this case.

H4 - No development shall take place unless and until full foul and surface water drainage details including Yorkshire Waters permission to discharge have been submitted to and approved in writing by the Local Planning Authority. Thereafter no part of the development shall be occupied or brought into use until the approved scheme has been fully implemented. The scheme shall be retained throughout the life of the development unless otherwise agreed in writing with the Local Planning Authority. @ To ensure the proper drainage of the area

OBJECTION*	**Defer for amends/further information***	

*Delete as applicable
