**BS 5837 Retention Categories**

- Category A:** Trees of high quality and amenity. Usually mature trees with a significant life expectancy which would enhance any development. Retention of these trees is strongly encouraged.
- Category B:** Trees of moderate quality and amenity. Usually mature trees, or younger trees with exceptional form. Retention of these trees is desirable though the removal of occasional specimens may be acceptable.
- Category C:** Trees of low quality and amenity. The removal of these trees should generally be seen as acceptable in order to facilitate development.
- Category U:** Trees whose structural condition is such that they should be removed if development is to proceed.
