Description

The Shiplap Bike Shed from Rowlinson is the perfect bike storage option for any garden with double lockable doors for easy access

Order online or call
0345 034 6481
lines open Mon-Fri 9am-5pm

The Shiplap cladding is dip treated with a honey-brown finish and the roof is completed with mineral roofing felt for the perfect storage option for your bikes.

Made from timber that has been pre-treated with a water based timber treatment for protection during transit. In order to activate any stated guarantee, it is necessary that you treat the garden building with a high quality, spirit-based, timber preservative prior to or shortly after construction. This will protect the timber from weathering and will need to be repeated accordingly in relation to manufacturer's instructions.
