Dear Sir or Madam,

Glassworks Phase 2 - Application for the discharge of condition 26 relating to planning permission Ref. 2017/0586

I am writing to you on behalf of my client Henry Boot Construction Limited who is seeking to discharge condition 26 of planning permission Ref. 2017/0586.

Supporting Information

This application is supported by:

- The below HBC statement; and,
- Photos of recent diversions.

HBC Statement

Public water supplies are limited to the highway outside of the main site boundary. Although minimal, some works within the highway are required to connect new services / drainage connections, and later in the project the conversion of bituminous surfaces to granite paved areas. We employ safe digging methods including service locations via radar / CAT and Genny scanning, trial holes to locate services and 'permit to break ground' systems.

Henryboot has an ISO9001, 14001 and 18001 Certified management system. The construction phase health and safety plan cover protection of services, this is cascaded to contractors through checklist meetings prior to appointment, included in Site Specific Risk Assessment and Method Statement, Induction of all personnel as they arrive, and in the form of Tool Box Talks specific to task.

The works are undertaken by trained and competent people and contractors with the correct level of supervision to ensure no services (Including water) are disrupted.

Personnel training for the above includes but is not limited to:

- Academic Qualifications
- New Roads and Streetworks Act – supervisors, and hot / cold lay materials

Avison Young is the trading name of GVA Grimley Limited registered in England and Wales number 6382509. Registered office, 3 Brindleyplace, Birmingham B1 2JB

Regulated by RICS

- CAT and Genny Specific
- CSCS
- CPCS
- A mixture of IOSH, SSTS, SMSTS, NEBOSH

Consideration to heavy plant such as cranes are also considered when they are to work in close proximity to known services, lift plans are created by internal/external suitably qualified personnel, and supervised accordingly.

Any works to the water supplies or any other services are undertaken by the suppliers who utilise their own contractors to undertake the works.

Fee

The planning application fee of **£136** (inclusive of the Planning Portal's administrative charge) has been paid by BACS.

I trust the above is sufficient to discharge the condition. If you have any queries, please do not hesitate to ask.

Yours faithfully

Lee Shaw
Planner
