

## Statement of Operations

### OPERATIONS OF BUSINESS

My business provides high quality services to clients, offering relaxing beauty treatments.

### WORKING HOURS

Mondays 9:30am - 12pm

Tuesdays 9:30am - 1:30pm

Wednesdays 1pm - 6pm

Fridays 9:30am - 3pm

Alternate Saturdays 9:30am - 2pm

(Only changed my hours slightly as I do dog walking and that little business has grown therefore I'm doing a bit of both).

### PARKING

The frontal driveway will be used for dual purposes, there will always be two parking spaces for clients as no one will be parked there through the day. I do acknowledge that three spaces is the requirements, however, one space is intended to be necessary for business usage. I will be managing one client at a time therefore, I will have designated time intervals of 20 minutes in between clients to free up parking spaces allowing one client to leave and time for the other to gain access to the driveway without causing congestion.

EQUIPMENT (Minimum electrical equipment will be used as not necessary therefore no noise will be made).

Wax Pot is used to professionally, and safely wax a clients eyebrows.

Ring Light is used to carry out treatment to perfection, so I am able to see every detail on a clients eyebrows or eyelashes to mimic any complications occurring.

### SUMMARY

I would like to have an outbuilding for my business to be able to work from home. It will have so many benefits for me as I have an 7 month old cocker spaniel we are training, in the near future we would like another cocker spaniel, it means that I can be at home to train them to the standards I would like. I also have a hobby of dog walking, were I go to the owners house and walk their dogs for them, most of the time I take my dog too so working from home would mean less of a journey and it would help me balance life of dog walking and my beauty business.

I would prefer an outbuilding over a commercial building because I would like to own and be proud of something of my own. I would rather have less outgoings such as rent to not have to pay on top of bills. My goal has to always have a little something at home I can work from and not be owned by a landlord.
