Email from Robert Payne as follows:

I am writing in relation to your planning enquiry to Barnsley Metropolitan Borough Council regarding proposals for a '2 storey extension and remodel to increase overall dwelling size with associated garage. Inclusive of full external renovation'. Based upon the information supplied and checks carried out, as you are probably aware, the proposals would require the following consent from the council.

a. Householder Planning Consent

In more detail, I have checked, and the house has had three previous planning application for works to extend the dwelling and create a new garage. As these were completed in the 1970's and 1982, I do not have the files to check the exact works or any conditions. If a full planning application was submitted, these may be recalled from the archives, if available. The area is not within the Cawthorne conservation area but is within the buffer zone for Cannon Hall farm and falls within the Cawthorne neighbourhood plan. I do not believe wither of these would cause significant. If any issue for a householder application.

Regarding the proposal, if as I incorrectly assumed it was located on Tivy Dale Drive, instead of Tivy Dale Close, I believe there may have been a good chance of the proposals being approved. I can of cause not guarantee that, nor could I rule out the proposals being approved here, but I am very cautious, given the bold design and the immediate street scene being reasonably uniform. The closest deviation from this would be the adjacent neighbour of No.8, but they have a large hedge diffusing the view of their dwelling, initially I missed this house and noticed No 6, which appears to be like what you are proposing.

The first concern would be the use of too many materials, brick, render, dark gey cladding? And wood cladding? I believe the render alone may be difficult to gain approval for but there is precedent on the street for render. The box dormers, although abundant within the street scene are generally not considered as a good design feature and making them more prominent through the use of uncommon materials within the street scene would again be difficult to gain approval for. The amount of glazing within the front elevation is also a concern, whilst again common on other dwellings on Tivy dale close, the immediate street scene is devoid of such features, and being within a prominent corner position, it would be difficult to justify such a design feature.

Overall, the design is a bold, contemporary style renovation of a traditional bungalow, which in all honesty looks great, unfortunately the location of the dwelling does not lend itself to such a design. However, this is my opinion and as with all applications, if this arrived in my inbox as an application, I would try my best to get it approved but do have realistic expectations of it being rejected (not refused) without some significant (negotiated) amendments.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
