

GRANT OF PLANNING PERMISSION

TOWN AND COUNTRY PLANNING ACT 1990

APPLICATION NO. 2023/0193

To Urbana Town Planning
Steel City House
2 West Street
Sheffield
S1 2GQ

DESCRIPTION Erection of 2no. dwellings and associated works
LOCATION 1 Unwin Crescent, Penistone, Sheffield, S36 6EG

Permission is **granted** for the proposals which were the subject of the Application and Plans registered by the Council on 07/03/2023 and described above.

The approval is subject on compliance with the following conditions:

- 1 The development hereby permitted shall be begun before the expiration of 3 years from the date of this permission.
Reason: In order to comply with the provision of Section 91 of the Town and Country Planning Act 1990.
- 2 The development hereby approved shall be carried out strictly in accordance with the plans (3158-004 1 Unwin Crescent First Floor Plan- received 11/05/2023, 3158-001 REV D- Proposed Site and Location Plan- received 10/08/2023, 3158-CDA-00-XX-DR-A-0402- Proposed Plans and Elevations 1 Unwin Crescent (Option 2)- received 10/08/2023, 3158-CDA-00-XX-DR-A-0101 REV A- Existing Plans 1 Unwin Crescent- received 10/08/2023, 3158-CDA-00-XX-DR-A-0200- Existing Elevations 1 Unwin Crescent- received 10/08/2023, 3158-003 Existing Site and Location Plan; 3158-002 Proposed Plans and Elevations; Planning Statement- all received 07/03/2023) and specifications as approved unless required by any other conditions in this permission.
Reason: In the interests of the visual amenities of the locality and in accordance with Local Plan Policy D1 High Quality Design and Place Making.

- 3 Prior to the commencement of the development hereby approved, details of separate systems of drainage for foul and surface water flows on and off site shall be submitted to and approved in writing by the Local Planning Authority. The separate systems should extend to the points of discharge to be agreed.

If discharge to public sewer is proposed, the information shall include, but not be exclusive to:

- a) evidence to demonstrate that surface water disposal via infiltration or watercourse are not reasonably practical;
- b) evidence of existing positive drainage to public sewer and the current points of connection; and
- c) the means of restricting the discharge to public sewer to the existing rate less a minimum 30% reduction, based on the existing peak discharge rate during a 1 in 1 year storm event, to allow for climate change.

There shall be no piped discharge of surface water from the development prior to the completion of surface water drainage works, details of which will have been submitted to and approved by the Local Planning Authority in accordance with this condition and the approved details shall be implemented prior to occupation of the dwelling and retained as such thereafter.

Reason: To ensure satisfactory and sustainable drainage of the area in accordance with Local Plan Policy POLL1 Pollution Control and Protection.

- 4 The parking facilities as indicated on the submitted plan shall be surfaced in a solid bound permeable material (i.e. not loose chippings) and adequate measures shall be so designed into the proposed access to avoid the discharge of surface water from the site on to the highway.

Reason: To ensure adequate provision for the disposal of surface water and to prevent mud/debris from being deposited on the public highway and to prevent the migration of loose material on to the public highway to the detriment of road safety in accordance with Local Plan Policy T4 (new development and transport safety).

- 5 The dwelling hereby permitted shall not be occupied until pedestrian visibility splays of 2m x 2m to the back edge of the footway have been provided at the proposed access. Nothing shall be erected, retained, planted and/or allowed to grow at or above a height of 0.6m to the rear of the footway which would obstruct the visibility splays. The visibility splays shall be maintained free of obstruction at all times thereafter for the lifetime of the development.

Reason: To ensure drivers have clear and unrestricted views of approaching pedestrians when pulling out onto the public highway, in the interest of highway safety in accordance with Local Plan Policy T4 (new development and transport safety).

- 6 Boundary treatments to the front of the plot shall be set at a height no greater than 900mm above the level of the near side channel line of the public highway to ensure the visibility thus provided shall thereafter be maintained as such.

Reason: To ensure drivers have clear and unrestricted views when pulling out onto the public highway, in the interest of highway safety in accordance with Local Plan Policy T4 (new development and transport safety).

- 7 The development hereby approved shall be constructed from the following materials/specifications:
- The front and rear elevations shall be constructed in square coursed sandstone to match that of neighbouring dwellings in the conservation area
 - Side elevations are to be constructed in red brick
 - The roof covering shall be natural blue / grey slate or a good quality thin artificial riven slate
 - Heads and cills shall be dressed in stone
 - Rooflights shall be genuine conservation specific, vertically emphasised, low in profile and decorated black with a single vertical divider
 - Rainwater goods and downpipes shall be black
 - Windows and doors shall be rebated a minimum of 75mm in the reveal

Reason: To preserve and enhance the appearance of the Penistone Conservation Area and the subject dwelling in accordance with Local Plan Policy HE1 (The Historic Environment) and D1 (High Quality Design and Place Making).

- 8 Construction or remediation work comprising the use of plant, machinery or equipment, or deliveries of materials shall only take place between the hours of 0800 to 1800 Monday to Friday and 0900 to 1400 on Saturdays and at no time on Sundays or Bank Holidays

Reason: To reduce or remove adverse impacts on health and the quality of life, especially for people living and/or working nearby, in accordance with Local Plan Policy POLL1.

- 9 Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 2015 (or any Order revoking or re-enacting that Order with or without modification), no enlargement, improvement or other alteration of the dwelling which would otherwise be permitted by Part 1 of Schedule 2 to that Order shall be carried out without the prior written consent of the Local Planning Authority, and no garages or other outbuildings shall be erected.

Reason: To safeguard visual and residential amenity in accordance with Local Plan Policies GD1 and D1 and SPD 'Design of Housing Development' .

Informative(s)

Pursuant to article 35 (2) of the Town and Country Planning (Development Management Procedure) Order 2015 (as amended), the Local Planning Authority have, where possible, made a pre-application advice service available, and otherwise actively engaged with the applicant in dealing with the application in a positive and proactive manner.

- 1 The proposed development lies within an area that has been defined by the Coal Authority as containing coal mining features at surface or shallow depth. These features may include: mine entries (shafts and adits); shallow coal workings; geological features (fissures and break lines); mine gas and former surface mining sites. Although such features are seldom readily visible, they can often be present and problems can occur, particularly as a result of new development taking place.

Any form of development over or within the influencing distance of a mine entry can be dangerous and raises significant land stability and public safety risks. As a general precautionary principle, the Coal Authority considers that the building over or within the influencing distance of a mine entry should be avoided. In exceptional circumstance where this is unavoidable, expert advice must be sought to ensure that a suitable engineering design which takes into account all the relevant safety and environmental risk factors, including mine gas and mine-water.

Your attention is drawn to the Coal Authority Policy in relation to new development and mine entries available at: www.gov.uk/government/publications/building-on-or-within-the-influencing-distance-of-mine-entries

- 2 Any intrusive activities which disturb or enter any coal seams, coal mine workings or coal mine entries (shafts and adits) requires a Coal Authority Permit. Such activities could include site investigation boreholes, excavations for foundations, piling activities, other ground works and any subsequent treatment of coal mine workings and coal mine entries for ground stability purposes. Failure to obtain a Coal Authority Permit for such activities is trespass, with the potential for court action.

If any coal mining features are unexpectedly encountered during development, this should be reported immediately to the Coal Authority on 0345 762 6848. Further information is available on the Coal Authority website at:

www.gov.uk/government/organisations/the-coal-authority

- 3 The granting of planning permission does not in any way infer that consent of the landowner is given. Therefore, the consent of all relevant landowners is required before proceeding with any development, including that of the Council as landowner.

If it should transpire that the applicant does not own any of the land included in this consent, then it is the responsibility of the applicant to seek all necessary consents and approvals of the landowner.

- 4 The development hereby approved includes the creation of/carrying out of alterations to vehicular access(es). You are advised that before undertaking work on the adopted highway you will require a Section 184 licence from the Highway Authority. The works shall be to the specification and constructed to the satisfaction of the Highway Authority. Fees are payable for the approval of the highway details, and inspection of the works. Further information and an application form are available on the BMBC website at <https://www.barnsley.gov.uk/services/roads-travel-and-parking/parking/dropped-kerbs/> or please contact at email Streetworks@barnsley.gov.uk or call to 01226 773555.
- 5 If the developer is looking to have new sewers included in a sewer adoption agreement with Yorkshire Water (under Section 104 of the Water Industry Act 1991), he/she should contact our Developer Services Team (telephone 03451 208 482, email: technical.sewerage@yorkshirewater.co.uk) at the earliest opportunity. Sewers intended for adoption should be designed and constructed in accordance with the WRc publication 'Code for Adoption - a design and construction guide for developers' as supplemented by Yorkshire Water's requirements.

Please be aware that the Council monitors construction sites and open land within the vicinity of such sites in an attempt to prevent fly tipping (i.e. unauthorised deposit of waste on land), which is illegal under the Environmental Protection Act 1990. The penalties for fly-tipping can include:

- a fine of up to £50,000 and
- up to six months imprisonment on conviction.

Therefore, if necessary, please ensure that all demolition waste and waste associated with the construction of any development is disposed of via approved methods and that documents are retained to prove this.

Signed

Dated: 25 August 2023

Development Management

For and on behalf of Group Leaders,
Andrew Burton and Matthew Smith

The grant of this consent does not constitute or imply permission, approval or consent by the Local Authority for any other purpose.

NOTES:-

Appeals to the Secretary of State

If you are aggrieved by the decision of the Council to grant permission for the proposed development subject to conditions then you can appeal to the Secretary of State for the Environment, Transport and Regions under Section 78 of the Town and Country Planning Act. If you want to appeal, then you must do so within six months of the date of this notice, using a form which you can get from The Planning Inspectorate, Room 3/24 Hawk Wing, Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6PN.

The Secretary of State can allow a longer period for giving notice of an appeal, but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal. The Secretary of State need not consider an appeal if it seems to him that the Local Planning Authority could not have granted planning permission for the proposed development or could not have granted it without the conditions it imposed, having regard to the statutory requirements, to the provisions of the development order and to any directions giving under the order. In practice, the Secretary of State does not refuse to consider appeals solely because the Local Planning Authority based its decision on a direction given by him.

Purchase Notices

If either the Local Planning Authority or the Secretary of State for the Environment, Transport and Regions refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor can he render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted. In these circumstances, the owner may serve a purchase notice on the Council in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of part VI of the Town and Country Planning Act 1990.

Compensation

In certain circumstances compensation may be claimed from the Local Planning Authority if permission is refused or granted subject to conditions by the Secretary of State on appeal or on reference to the application to him. These circumstances are set out in Sections 114 and related provisions of the Town and Country Planning Act 1990.
