Planning Statement

There are no parking facilities allocated with the property, however the property is situated in the village centre of Penistone, therefore multiple public parking spaces are available, the nearest being approximately 30m away from the property.

I intend to open for trade between the hours of 09:00am to 19:30pm and I would like one late night opening until 21:00pm preferably Thursdays as this way I can accommodate for potential customers to bring their dogs after working hours. This should not interfere with the surrounding properties and their occupants as the building is soundproof and adjacent to a public house.

I would estimate a maximum of six clients per day or less, however this would depend on the services I provide so therefore could be less than six.

I will be a sole trader, however with the growth of the economy and the business, I would look to employ a full time apprentice in the future.
